Imbue Botanicals, LLC will exhibit at the upcoming Pharmacy Development Services Show

PALM SPRINGS, CALIFORNIA, UNITED STATES, February 15, 2018

/EINPresswire.com/ -- Palm Springs, CA, February 2, 2018 - (Press Release Point)

– Imbue Botanicals, LLC a Wyoming based company, will exhibit its product line for independent pharmacies and pharmacists at the PDS Show in Orlando next week, February 21st through the 24th. Imbue Botanicals offers an extensive line of premium CBD products produced from organically grown Colorado hemp, including CBD tinctures and CBD capsules and CBD topicals for both people and pets, which has achieved a strong following in the community independently-owned pharmacy market.

According to their website, Pharmacy Development Services was founded 19 years ago by Dan Benamoz, RPh, with a goal of transforming the independent pharmacy industry through innovations, use of technology and helping owners achieve greater profitability. PDS' data-driven, proven strategies helped its members earn over \$80 MILLION in extra profits in 2016.

"We are very excited to be exhibiting at this show" said Tom Bauer, Managing Member of Imbue Botanicals. "It's a great opportunity to meet leading pharmacies and pharmacists from around the country and show them just why our products are gaining such huge popularity in this market. The products are superbly packaged and lend themselves to display and sales in a retail setting, such as a local pharmacy. But most important, our products allow pharmacy owners access to this fast-growing market while helping their patient population."

With nearly three decades of experience, the founders of Imbue Botanicals are passionate about utilizing their expertise and know-how to deliver exclusive, proprietary products, designed and envisioned to provide outstanding results. Their "Earth First" approach to business as well as consumer wellbeing is fundamental to all that they do.

Their products are carefully formulated for optimal concentrations. And the company's unique, low pressure and temperature processing ensures that its product is fully-infused with beneficial
