

# MxHero Expands Offerings In Support Of Legal Industry To Fuel Intelligent Content Management, AI, Machine Learning

*MxHero, Inc. today announced extended offerings in support of cloud-based content governance and security for the legal industry.*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, February 20, 2018 /EINPresswire.com/ -- "We are seeing an increase with the use of cloud technologies and content management solutions in law firms and legal teams within the enterprise", said Alex Panagides, co-founder and CEO of [MxHero](#) Inc. "As enterprises across the spectrum set the stage for 21st Century digitization, we're seeing strong adoption within the legal sector when it comes to intelligent content routing, governance, security, and collaboration leveraging leading cloud content management platforms. With the MxHero solution, law practices and legal business unit teams have elected to define content not only as content at rest placed into cloud-based containers, rather these practices are exploiting advanced digital, meta-data, intelligent routing and AI-based context and sentiment solutions targeting in-flight content as well. With some 40% of enterprise content unfortunately flowing through corporate email systems, with Mail2Cloud

solution platform, MxHero clients are able to fully capitalize on the security, governance and content collaboration objectives they strive for - including content that today flows through email. MxHero's Mail2Cloud solution, when combined with the world's leading cloud content management solutions, is of tremendous value to all organizations that are seeking new and better ways to increase their productivity through digital, secure and content-based collaboration technologies."
