via TV direct response commercials. The New Testament on 12 cassette tapes was sold on CBN, CNN and hundreds of other TV station throughout the country. Since that time the Alexander Scourby narration of the Bible has been the number 1 best seller bar none, and Alexander has been regarded as the Voice of the Bible and the very best Bible narrator in the World.

The Alexander Scourby was the first one ever to narrate the Bible in the early 1950's and the one he chose to narrate was the King James Bible. Since that time hundreds of others have narrated the Bible, but the Alexander Scourby narration of the Bible is still the best in the World and the Gold standard by which all others are judged. Over the years, the Scourby Bible has been on the cutting edge, and consistently used new technology to keep God's Word current with the new technologies. The company was the first to manufacture and market a Audio CD Bible, the first to have a digital download audio Bible in 2003 and the first to have a Bible App for the iPhone in 2007. The iPhone was first released on June 29, 2007 and in July of 2008, they were the first to have a Bible App for the iPhone.

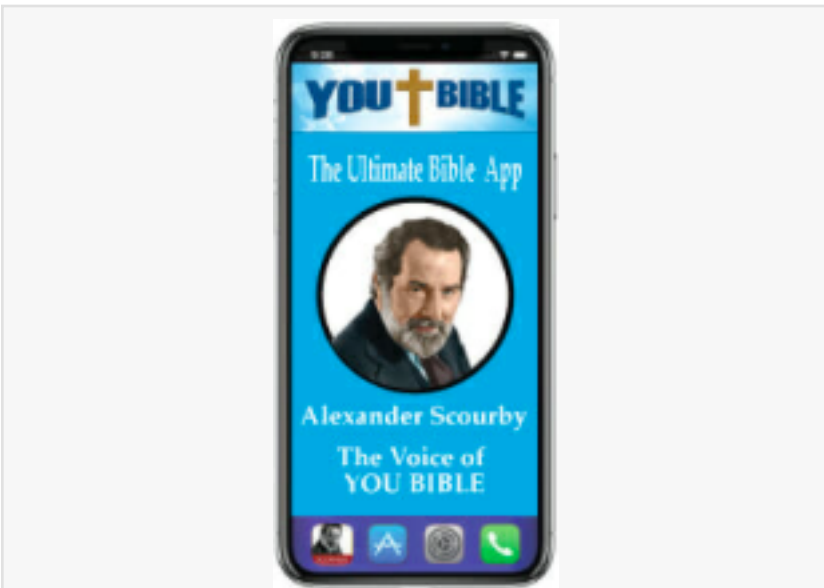

The Scourby Bible app for iPhone was an immediately hit and thousands of users downloaded the very first iPhone Bible App to their iPhones. That iPhone Bible app was a very basic App that included the Voice of Alexander Scourby, who the Chicago Tribune said, "had the greatest voice ever recorded", as well as the text of the King James Bible. At that time, the user had to manually scroll the text to keep up with the narrated Bible Audio. However, today the audio and text are synced together and it auto scrolls with the action verse being read highlighted in yellow.

That was the first time since 1611 that Bible readers could access the Bible differently than Bible readers did in 1611. This was the very first time Bible users could both hear and read the Bible at same time with a small hand held device. That type of sensory input was called a bi-modal experience, since users were using two different sensory inputs in the brain, the one for reading and the other for hearing. "Faith cometh by hearing and hearing by the Word of God". (Roman 10-17)

Studies have shown that when people can read and hear at the same time, understanding, comprehension and retention is greatly increased. The introduction of the Bible App on iPhone, was the biggest technology leap since the invention of the Gutenberg press in 1450. The first book printed was the Latin Bible and later the Gutenberg press was used to print King James Bible in English.

The Chicago Tribune wrote that Alexander Scourby has the greatest voice ever recorded.
