Jim Miller, Chairman and CEO of ImageWare Systems, Talks About Partner Agreement With LifeMed ID

"In The Boardroom" on SecuritySolutionsWatch.com

NEW YORK, NY, UNITED STATES, February 20, 2018 /EINPresswire.com/ -- Jim Miller, Chairman and CEO of ImageWare Systems joined us "In The Boardroom" to discuss recent developments.

For the entire interview, please click here: http://securitysolutionswatch.com/Interviews/in_Boardroom_ImageWare.html

On February 15, 2018, ImageWare Systems released the following news: https://www.iwsinc.com/2018/02/15/lifemed-id-enters-partner-agreement-with-imageware-systems/

LifeMed ID Integrates Imagewares Patented Multi-Modal Biometric Authentication Software into its Patient Authentication Software Solution for Healthcare

Jim Miller, Chairman and CEO, ImageWare Systems

IMAGEWARE® SYSTEMS

GoVerifyID®

www.GoVerifyID.com

LifeMed ID, a wholly owned subsidiary of OrangeHook, Inc., (OTCIQ: ORHK) announced the company has entered into a partnership agreement with ImageWare Systems, Inc. (OTCQB:IWSY.) The new partnership combines LifeMed IDs Authoritative Identity Management Exchange (AIMeTM), a comprehensive solution that eliminates many root causes of patient misidentification, with ImageWares powerful multi-modal biometric authentication platform GoVerifyID®.

> Thank you Jim Miller for joining us "In The Boardroom" to discuss the Agreement With LifeMed ID and other exciting developments at ImageWare with partners such as Fujitsu, HPE, IBM, Microsoft & SAP."
>
> *Martin Eli, Publisher*

Our partnership with ImageWare combines our proven methods of patient identity proofing with multi-modal biometrics to streamline patient authentication. As a result, we can eliminate manual processes that are the source of serious errors and continued creation of duplicate medical

records, said Rick Resnick, Co-CEO at LifeMed ID. Our token agnostic approach offers customers full flexibility to address the wide variety of existing workflows across the care continuum and allows them to evolve over time with everchanging technology. Healthcare organizations can now have the means to assure that every patient will have one identity permanently linked to the correct medical record across all points of care.

Healthcare organizations will be able to provide care with confidence knowing that they have the right medical record for each patient, said Jim Miller, CEO at ImageWare Systems. The healthcare enterprise will be enabled to operate more efficiently and the risk of medical identity fraud is drastically reduced using biometric authentication. The combination of AIMe and GoVerifyIDs biometric platform is a powerful combination that will help further assure that the correct health record is being tied to the right patient.

About LifeMed ID
LifeMed ID enables accurate patient identification by providing Authoritative Identity Management Exchange (AIMe), a patent pending comprehensive ID platform. AIMe provides confirmation that patients are accurately known as they travel throughout the various stages of care, allowing facilities to confidently welcome patients and successfully manage their identities. Patients simply present their ID which is already linked to their unique records at check-in. This process provided by AIMe allows physicians to reference the right information for treatment. For more information, visit http://www.lifemedid.com.

About ImageWare Systems, Inc.
ImageWare Systems stands out as a leader in cutting-edge, identity management solutions driven by biometric technology. We deliver next-gen biometrics as an interactive and scalable cloud-based solution. We combine cloud and mobile technology to offer multi-factor authentication for smartphone, tablet, and desktop users. Our solutions provide multi-modal biometric authentication, using voice, fingerprint, facial recognition, our own patented software algorithms, and partnerships with leading multi-factor identification proofing providers.

These biometrics can be combined with authentication and access controls including tokens, digital certificates, passwords, and PINS to provide the ultimate level of assurance and accountability for enterprise networks, financial institutions, retailers, and healthcare providers. Whether its a website, mobile device, or desktop app we provide biometric authentication solutions that are easy-to-use and offer the very highest security assurance available.
