

# Traumatic Brain Injury - Companies Involved in Therapeutics Development, H1 2018

PUNE, MAHARASHTRA, INDIA, February 21, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "Traumatic Brain Injury - Pipeline Review, H1 2018"

## Traumatic Brain Injury

### Overview

Traumatic brain injury happens when an external mechanical force causes brain damage. Traumatic brain injury usually results from a violent blow or jolt to the head or body. Symptoms include headache, dizziness, nausea or vomiting, mood changes, fatigue or drowsiness, difficulty sleeping and memory or concentration problems. Risk factor includes age. Certain types of traumatic brain injury increase the risk of developing Alzheimer's disease and coordination problems.

Certain types of traumatic brain injury increase the risk of developing Alzheimer's disease and coordination problems.

Traumatic Brain Injury

## Top Companies mentioned

ALSP Inc

Beech Tree Labs Inc

CalciMedica Inc

Eisai Co Ltd

Ischemix Inc

JT Pharmaceuticals Inc

Karyopharm Therapeutics Inc

Therapix Biosciences Ltd

Vasopharm GmbH

## Traumatic Brain Injury Industry Major Outlook

Pharmaceutical and Healthcare latest pipeline guide Traumatic Brain Injury - Pipeline Review, H1 2018, provides comprehensive information on the therapeutics under development for Traumatic Brain Injury, complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Traumatic Brain Injury (Central Nervous System) pipeline guide also reviews of key players involved in therapeutic development for Traumatic Brain Injury and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 1, 6, 10, 60 and 8 respectively. Similarly, the Universities portfolio in Preclinical and Discovery stages comprises 9 and 1 molecules, respectively.

Traumatic Brain Injury pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage.

## Traumatic Brain Injury - Competitive Analysis

Key players are making innovative developments in Traumatic Brain Injury industry. The same will help in improving the market performance. Heavy investments are made by major players in the R&D sector

## Scope

The pipeline guide provides a snapshot of the global therapeutic landscape of Traumatic Brain Injury.

The pipeline guide reviews pipeline therapeutics for Traumatic Brain Injury by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Traumatic Brain Injury therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Traumatic Brain Injury therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Traumatic Brain Injury.
