

# Pod Solutions and Subex partner to provide advanced security for IoT Billing and Connectivity Service

*Subex Limited has been selected by Pod Solutions as part of Pod Group's billing and connectivity service.*

SAN FRANCISCO, CA, UNITED STATES, February 20, 2018

/EINPresswire.com/ -- Subex Limited, a leading telecom analytics solution provider, has been selected by Pod Solutions, a division of Pod Group to implement its IoT Security Solution, Subex Secure, as part of Pod Group's billing and connectivity service.

Pod Group designs platforms for the people building tomorrow's connected world. These include billing, connectivity and security services for IoT companies across a wide variety of sectors as well as enterprises and operators for millions of devices globally. Pod Solutions is the customized development division of Pod Group which partners with industry leaders to build tools that reduce the complexity and accelerate the adoption of IoT applications.

The partnership with Subex will enable Pod Solutions to develop advanced security services, allowing customers to rapidly create, deploy and bill mission critical [IoT solutions](#) with maximum security and resilience.

Speaking on the announcement, Alistair Elliott, CEO, Pod Solutions said, "Today, the security of IoT applications is one of the issues causing most concern and is therefore one of the biggest barriers to IoT adoption. We are excited to be partnering with Subex, since we identified them as a leading provider of IoT Security solutions that would be complementary to our existing network architecture and IoT business models. The Subex IoT solution- Subex Secure allows us to scale towards providing the most cutting-edge security solutions to millions of IoT devices, thereby providing us with a competitive advantage."

"It gives us great pleasure to partner with Pod Solutions to provide resilience to their connectivity services. We were selected after a very comprehensive evaluation, wherein we proved our capability to detect various attacks through Subex threat intelligence system, leveraging our industry leading IoT honeypot. These coupled with our flexible business model and non-intrusive approach helped us to secure this partnership" said Vinod Kumar, COO, Subex Limited.

## About Pod Solutions

Pod Solutions is the customized development division of Pod Group, a provider of platforms and software for the people building tomorrow's connected world. We work to solve the most complex connectivity issues, utilizing the latest technology from our community of technology partners to

develop innovative solutions to the problems that are creating barriers to IoT adoption. Pod Solutions works with cutting edge technologies and connectivity methods, collaborating with industry leaders to build a strong and lucrative IoT ecosystem.
