

ThatAway, LLC Launches on Kickstarter

MIAMI, FLORIDA, USA, February 22, 2018 /EINPresswire.com/ -- [ThatAway, LLC](#) has launched its new memory signs on [Kickstarter](#). At ThatAway, LLC we created the ultimate expression of America's diversity. ThatAway memory signs are a fresh idea for the old concept of the directional sign. Whether you were born in Peru, went to school in Boston, honeymooned in Paris, live in Orlando, have a favorite NY sports team, or planning a retirement in Hawaii; ThatAway Memory Signs will point you in the right direction (exactly). The signs will line up your hopes, memories, dreams, favorite vacation spots, family locations and more. Each slat of the sign will have precisely the distance and direction to your memory places. ThatAway will be launching two signs: The ThatAway-Pro and the ThatAway-Mini.

The ThatAway-Pro sign is an indoor/outdoor sign that can be placed on patios, backyards, barbecue areas or inside your living room or den. It is made with color safe industrial grade plastic and is weather resistant and UV protected, making it completely safe for outdoor use. The sign stands over six feet tall and is extremely easy to assemble. The ThatAway-Pro is made in the U.S.A.

The ThatAway-Mini sign is built with the same materials as the ThatAway-Pro. The indoor sign can be placed on desks, tables, book shelves, or dressers. The sign stands over 12 inches tall and is extremely easy to assemble. And of course, the ThatAway-Mini is made in the U.S.A.

The patent-pending ThatAway sign system will point your slats / memories in the proper direction. Every one of your destinations is a specific distance and bearing from your home. When ordering your sign, you will be asked where you live. This will be the center point of the calculations. Then, order your destination / memory slats. (On the ThatAway-Mini: 4 slats / ThatAway-Pro 3 to 5 slats). The distance and bearing will automatically be calculated for you and shown in your personalized instructions. Assembly takes minutes.
