There are also signs of a gradual shift in the government’s priorities as previous concerns over self-sufficiency are weighed against the possible benefits of market liberalization. Any change in policy could have far-reaching effects on commodities markets not just in China but across the world.

Crop Farming China Newswill help you stay ahead of the game in this fast-changing market with real-time reporting on the entire agriculture industry chain, from seed markets to the downstream food and feed markets. This includes:

- Breaking news from China and abroad
- The latest market data, including commodity price information, import/export data, production, yields, impact of pests, diseases and extreme weather, etc.
- In-depth analysis of market trends, Chinese government policy, M&A, new technologies, and more
- Expert commentary from industry insiders, including regular guest articles and interviews with insiders at leading Chinese companies, associations and government organizations
