

# Several Connecticut Companies Involved In China-Led ISO Accreditation Scheme, Sources Say

*U.S. Senate Candidate challenges Connecticut manufacturers to choose U.S. over China for ISO accreditation and oversight*

HARTFORD, CT, US, February 23, 2018 /EINPresswire.com/ -- The latest economic reports show President Trump's 'America First' movement is gaining momentum nationwide among Republicans and Blue Dog Democrats, a caucus of United States Congressional Representatives from the Democratic Party who identify as conservative Democrats.

U.S. Companies Under China Oversight

Daryl Guberman (<http://www.darylguberman.com>), a life-long Stratford resident, and candidate for U.S. Senate (I-CT) has seemingly taken the leading role in the Constitution state in effort to promote the President's 'America First' ambitions. Guberman is directly and indirectly challenging Connecticut-based ISO certified businesses to recognize the advantages of a US-based accreditation body over the China-led International Accreditation Forum (IAF).

“

Every business owner seeking to acquire or renew their ISO certification need to honestly ask themselves if their allegiance is to China or the United States of America?”

*Daryl Guberman*

Guberman said he repeatedly informed three Connecticut manufacturers of the risks associated with their quality management system (ISO certification) being influenced by China-led IAF. Records show The ISO certificates of all three businesses are accredited by ANAB (ANSI-ASQ National Accreditation Board), an active member and signatory of

China-led IAF which is under the leadership of Mr. Xiao Jianhua in Beijing, China.

The three Connecticut companies Guberman warned of Chinese over-sight in the certification of their quality management system includes Integracast, Inc. of New Britain, CT; Raym-Co Inc. of Farmington, CT; and [Astro Aircom](http://www.astroaircom.com), LLC of Windsor, Connecticut. Guberman's Youtube channel includes videos produced specifically for Connecticut-based companies knowingly and unknowingly paying for what has been dubbed a China-led accreditation and oversight racket by leading independent accreditation bodies in the United States, including the American Board of Accredited Certifications (<http://www.aboac.org>).

The videos can be viewed at:

New Britain, CT Casting Company [Integra-Cast, Inc.](https://youtu.be/ak4CCdGAMlw) Under China Accreditation For AS9100 and NADCAP <https://youtu.be/ak4CCdGAMlw>

Connecticut-Based Machine Shop [Raym-co, Inc.](https://youtu.be/aNEYHIOWk0A) Involved In Chinese Accreditation Scheme <https://youtu.be/aNEYHIOWk0A>

Astro Aircom of Windsor, CT Over-Seen By China-led International Accreditation Forum (IAF) [https://youtu.be/rLLsVgOd\\_S8](https://youtu.be/rLLsVgOd_S8)

Guberman said his videos are necessary to inform, educate, and protect American businesses from being exploited and hoodwinked into a foreign accreditation scheme impacting virtually every industry in the United States from automotive, aerospace and firearms, to electronics, custom manufacturing, and even the nation's food industry, reported the Chicago Evening Post.

"Businesses in nearly every major sector across the country have the choice to be quality certified and accredited by an American organization independent of China-led IAF, or an accreditation body such as ANAB over-seen by Mr. Xiao Jianhua in Beijing, China and his colleagues at the International Accreditation Forum (IAF), said Guberman.

He added, "Every business owner seeking to acquire or renew their ISO certification need to honestly ask themselves if their allegiance is to China or the United States of America? Unfortunately, Connecticut manufacturers Raym-Co, Integracast, and Astro Aircom chosen China-led IAF which consists of members from two known terrorist states; Iran and previously North Korea."

"We can't continue to allow China to rape our country, and that's what they're doing. It's the greatest theft in the history of the world," President Trump said in a rally during his presidential campaign. He repeated his message during his recent inauguration address...

"From this day forward, a new vision will govern our land. From this moment on, it's going to be America First. America First. Every decision on trade, on taxes, on immigration, on foreign affairs, will be made to benefit American workers and American families. We must protect our borders from the ravages of other countries making our products, stealing our companies, and destroying our jobs. Protection will lead to great prosperity and strength."

Guberman said President Trump's two simple rules: 'Buy American and Hire American,' inspired him and others to expose the hypocrisies, antitrust violations, cronyism and taxpayer abuse by federally-funded organizations involved in an unofficial accreditation scheme of quality management systems directly under Chinese supervision despite being cited by leaders in the quality community as UN-American.

Donald LaBelle, Chairman of the American Board of Accredited Certifications (ABAC) said far too often he sees businesses victimized by the 'pay-to-play' proposition in which they are told in order to 'play, they must pay' which meant, being certified by a 'well-connected' registrar that is over-seen by ANAB and its China-led oversight body IAF.

"Any American business owner doing business in the United States and allowing an ISO registrar to fabricate the necessity of ANAB's unofficial accreditation, may as well forfeit their U.S. citizenship now for lacking the willingness to stand up against oppressive restrictions, restraint of trade, and one's born given right as an American for independence, liberty, and free choice within our borders," said LaBelle.

#### About Integra-Cast, Inc.

Integra-Cast, Inc. (ICI) is a producer of assembly-ready precision aluminum components located in New Britain, Connecticut. The company is certified by a registrar over-seen by an accreditation body (ANAB) belonging to China-led International Accreditation Forum (IAF).

#### About Raym-Co

Founded in 1978, Raym-Co is a machine offering the fabricating of both metals and plastics. The company's unofficial ISO 9001:2015 certificate was issued by Perry Johnson Registrars, a certification body over-seen by the China-led IAF member ANAB. The company is located in Farmington, Connecticut.

#### About Astro Aircom, LLC

Located in Windsor, Connecticut, Astro Aircom is an aerospace and defense manufacturer. The company's quality certificates was issued by a registrar unrecognized by the American Board of Quality Certifications (ABAC) due to its accreditation body (ANAB) belonging to the International Accreditation Forum (IAF) which consists of members from Iran, Pakistan, and previously North Korea, all of which considered equivalent in decision-making roles, according to ANAB and IAF leadership.

#### About The American Board of Accredited Certifications (ABAC)

ABAC (<http://www.aboac.org>) is the leading independent accreditation body of the United States and the only federally recognized oversight body nonaligned with China-led International Accreditation Forum (IAF). ABAC accredits quality certifications based on the fundamental principles of accountability, ethical conduct, and commitment to quality. ABAC's allegiance is to the United States, and it has taken a stand against domestic and foreign certificate mills issuing "quality" certifications interpreted as "official" to American companies complying or willing to comply to entities outside of the United States.
