Polyvinyl Chloride (PVC) -Market Demand, Growth, Opportunities and Analysis Of Top Key Player Forecast To 2023

PUNE, MAHARASHTRA, INDIA, February 26, 2018 /EINPresswire.com/ -- Polyvinyl Chloride (PVC) Industry

Description

Global Polyvinyl Chloride (PVC) market is expected to reach around \$85 billion by 2022 growing at a CAGR of 6.2% during the forecast period. The factors contributing to the market growth include increasing construction and infrastructure spending in emerging markets. Furthermore, huge growth in automotive industry is expected to stimulate the market. However, unstable raw material prices and the strict government regulations, mainly in North America and Europe are the key challenges faced by the market. Electrical & electronics market is likely to be the fastest growing application segment due to growing Chinese and Taiwanese electronics industry.

The construction industry was the major end user segment using polyvinyl chloride products accounting for around 70% of the global Polyvinyl Chloride consumption. The rising demand of wood plastic composites and electric vehicles are the key opportunities in the Polyvinyl Chloride market. Asia Pacific has the major market due to high growth potential of construction industry. China was the major consumer in Asia-Pacific, accounting for more than half of the total regional consumption.
