

Doubleview (TSX-V: DBV) – Doubleview Provides Plans for Launch of 2018 Field Season

Exploration work ready to begin as soon as field conditions permit. The Hat Project lies within the Golden Triangle area of northwestern BC, Canada.

VANCOUVER, BC, CANADA, February 28, 2018 /EINPresswire.com/ -- [Doubleview](http://www.doubleview.ca) Capital Corp. (“Doubleview”) (TSX-V: DBV) reports it has completed a comprehensive review of historic and recent work on its Hat gold-copper-cobalt-silver porphyry project, with definition drilling and other exploration

work ready to begin as soon as field conditions permit. The Hat Project lies within the Golden Triangle area of northwestern British Columbia, 190 kilometres south of Atlin. Following recent tenure acquisitions, the project’s claim holdings now comprise 6,308 hectares.

Diamond drilling at the Hat Project will focus initially on the property’s Lisle and Hoey areas, exploring the continuity of gold-copper-cobalt-silver mineralization in the 2-kilometre distance between the areas. In particular, drilling site will be positioned south of Doubleview’s drill hole H-22 that intersected 418.28 metres of 0.50% CuEq mineralization including 110 meters of 1.01% CuEq mineralization (1). The mineralization in hole H-22 lies at the same elevation as mineral showings at the Hoey Gold prospect which is also going to be explored by diamond drilling.

The Hoey area has been sampled at surface where metal values as high as 7.05% copper, 8.11 g/tonne gold, and 0.54% Cobalt were reported from chip and channel samples. Geochemical soil samples from the area are strongly anomalous in precious metals, copper and other elements that accompany alkalic porphyry-type mineralization.

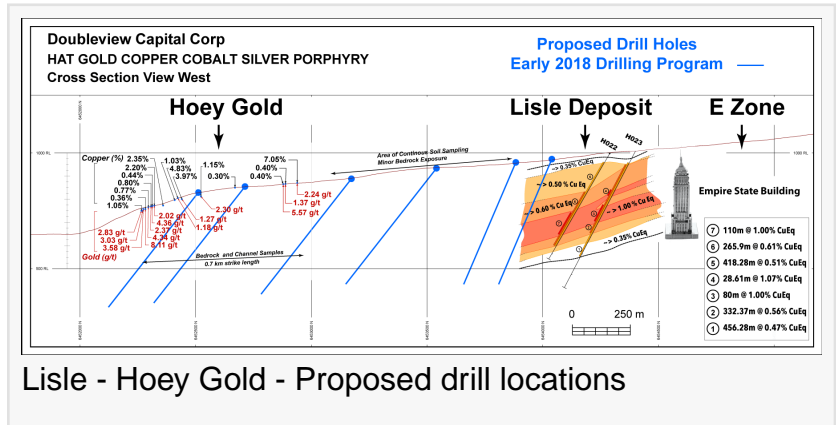

The section diagram demonstrates the updated mineralization models and proposed initial drill locations south of the Lisle area and Hoey Gold prospect.

Other highly prospective areas of the Hat Project may be drill tested later in the season.

(1) News Release dated: January 23, 2018; CuEq figures employ the following metal prices: Gold: \$1300/oz, Copper: \$3.0/lb, Silver: \$17/oz, and Cobalt: \$35/lb. CuEq. calculations are presented in US dollars.

Qualified Person

Erik A. Ostensoe, P. Geo., a consulting geologist and Doubleview's Qualified Person with respect to the Hat Project as defined by National Instrument 43-101 Standards of Disclosure for Mineral Projects, has reviewed and approved the technical contents of this news release. He is not independent of Doubleview as he is a shareholder of the company.
About Doubleview Capital Corp.

Doubleview Capital Corp., a mineral resource exploration and development company, is based in Vancouver, British Columbia, Canada, and is publicly traded on the TSX-Venture Exchange [TSX-V: DBV], [OTCBB: DBLVF], [GER: A1W038], [Frankfurt: 1D4]. Doubleview identifies, acquires and finances precious and base metal exploration projects in North America, particularly in British Columbia. Doubleview increases shareholder value through acquisition and exploration of quality gold, copper and silver properties and the application of advanced state-of-the-art exploration methods. The Company's portfolio of strategic properties provides diversification and mitigates investment risk.

On behalf of the Board of Directors,
Farshad Shirvani, President & Chief Executive Officer
