## Step 2: Choosing Your Domain Name

HostedInCanada offers you 3 options when it comes to your domain name. You can buy a new domain, transfer your existing domain to HostedInCanada, or continue using your existing domain as well as the existing domain registrar by updating the name-servers of HostedInCanada with your domain registrar.

If you are finding it difficult to come up with a domain name, here are a few tips:

1. Make it easy to type and remember
2. Keep it short and descriptive
3. Use Keywords people would search for your product or service
4. Target your local area or national area (i.e. HostedinCanada.com)
5. Avoid numbers and hyphens, people just don't remember them
6. Be memorable of course
7. Research your options before buying
8. Use an appropriate domain extension (.ca, .com, .lawyer, .photo, .contractors)
9. Protect your domain by registering obvious miss spelled versions

Once you have made your selection, you will be taken to the next page.

## Step 3: Configure Your Hosting Package

In this step, you can configure your hosting package. You can select your billing cycle, choose add-on services, and review the order summary one last time.

## Step 4: Domains Configuration (New Domain Buyers Skip This Step)

In this step, you configure your domain to redirect it to HostedInCanada's web hosting servers. So, if you are buying a new domain from HostedInCanada, then this step will not pop up in your hosting purchase process as it will be done automatically for you.

If you are using a pre-existing domain, then you will need to share the EPP code generated from your existing hosting service with HostedInCanada. Then you can proceed to the next step, which is Checkout.

## Step 5: Checkout

On this page, you'll share your contact details, your billing details, and your payment details. You can make the payments using your credit card or PayPal.

And that's it. You've purchased your WordPress hosting in Canada, and possibly a new DYNAMIC domain name. The entire process will hardly take a few minutes and you will be done even before you know it.
