DASA locally and globally, they participate in local and regional events as well as (online) platforms to help create content, share information about DevOps and how it intersects with other IT Best Practice Frameworks like ITSM, Lean IT, Cloud Computing and others. They not only represent DASA, but they will also contribute to and influence new DASA programs, helping ensure these programs meet the requirements of their local markets. This select group of professionals will help spread the word about how the [DASA DevOps Competence framework](#), Maturity model, and Certification scheme provides IT Professionals and Teams the

skills and knowledge needed to address cultural and organizational issues in order to deploy DevOps successfully.

About the [DevOps Agile Skills Association](#) (DASA)

DASA is an independent and open, members driven association supporting the development of DevOps training and certification to the global market. Advocating the development of High-Performance IT Professionals and Teams through agile DevOps initiatives.
