MxHero deepens integration between Microsoft's Outlook and Leading Enterprise File Storage Solutions

MxHero's popular plugin can now search and open important emails saved to cloud storage directly from within Outlook

SAN FRANCISCO, CA, UNITED STATES, March 2, 2018 /EINPresswire.com/ -- San Francisco - Today, mxHero announces new capabilities for its popular plugin for Outlook that integrates leading cloud content management services into Outlook's user interface. The new release allows users to search and open emails saved to either Box or Egnyte's cloud content solutions directly from within Outlook.

Companies across all industry verticals wishing to improve workflow and secure their email-based content including regulated industries such as Financial Services, Law Firms, Healthcare entities, IT organizations and others greatly benefit from the new features. The new mxHero plugin offers seamless access to a company's content management system directly from the Outlook environment's user interface. Users can simply drag & drop emails to their cloud storage folders to trigger improved content organization, retention policies, automated workflows and even artificial intelligence and machine learning capabilities to email content. Furthermore, new search capabilities allow users to search for saved messages using key words, recipient & sender address, and date ranges. Messages found through improved search capabilities can then be opened directly in Outlook for review, replying, etc.

> With mxHero, companies can leverage their investment in the cloud and extend those incredible benefits to their emails and email-based attachment content."
