

TRADING MADE EASY Made History in the stock Market in February 2018 with there new X PRO Day Trading Software

TRADING MADE EASY Made History in the stock Market in February 2018 with there new X PRO Day Trading Software 322 Points for Month .

LAS VEGAS, NV, UNITED STATES, March 5, 2018 /EINPresswire.com/ -- I interviewed James Viscuglia II at there office in Las Vegas the founder and designer of the software X PRO and he said, We made in history on stock market!! and all of our members in our day trading group at <https://www.tradingmadeeasy.com/> So if you would've traded \$500.00 X 322 that is what you would made for the month and so on. The X PRO price action trading software work way over everybody standards .the software gives our signals and you have 3 to 5 minutes to get into the trade I made it so simple it,s on a 9th grade level. the software runs 23 hours a day for trading, what makes the in our diffidence then any other trading system is the time line in the trend line and in EMA line and our trading group our people follow our simple rules for trading and it works out great!! plus our free live trading session that we have on the internet 5 days a week . WE shorted the market last month by trading SP 500 E MINI,S on the Chicago Stock Exchange.Plus our new X PRO trading software will trading the German DAX market too. I tell everyone to watch it first for free seeing is believing right? and talk to others trading members in our group. He is one member in gourp talking about the our software "I have been trading Futures and stocks for more than 40 years and only wish that the [Trading Made Easy](https://www.tradingmadeeasy.com/) (X PRO) software had been available sooner! It would have saved me money and a lot of frustration. The X PRO software and rules are easy to understand because they indicated where to enter a trade and when to get out of a trade. You just have to follow the 6 simple indicators and be patient, rather than "hunting" for stocks and trades to take. Thank you James for all your dedication and hard work." Steve Boden, Las Vegas, NV

I always believe that people can learn to do the trading on their own if given the proper guidance," says Mr.Viscuglia. "Students who take my courses learn how to trade for themselves. After watching and learning, students can make educated risk assessments based on what they've learned. With my software, students can predict trading indicators and show the best chance of profitability. In addition, they will be able to view the lowest possible risks for loss." James said,Trading Made Easy which will be an educational institute working to equip others to determine for themselves what the right moves are in the trading field. He is also set to live stream a live trading session, which will be accessible via Google, Yahoo, Bing, Facebook and Twitter.

Viscuglia's aim is to ensure that people have control over their own financial futures. There is everyone from stay-at-home moms to retired law enforcement and military within his group. Coming from his own blue-collar beginnings, Viscuglia is from western New York where he was a machinist and computer programmer. He wanted to ensure that financially he could provide well for his family, which includes four children, after learning about trading from mentors, Viscuglia set out on his own path and created both the software and the Day Trading Group.

To learn more about new X PRO software and to test it for free first software, visit <https://www.tradingmadeeasy.com/>
