Highlights from Halitron, Inc.'s (OTC Pink: HAON) update Press Release:

Sales growth, expansion, brand development, and strategic acquisitions all part of the business plan for 2018.

Audit and [Up List](#) to OTCQB. Halitron has re-engaged Freidman LLP to complete the 2017 audit, which is one of the qualifying factors to up list to the OTCQB exchange. Friedman was previously engaged to provide audit work for the period ending September 30, 2016, and will continue to

finalize the project through September 30, 2017 over the coming months.

Share Buy Back. Another requirement for the up list is a share price of \$0.01 or higher and the Company, as previously announced, is currently engaged in a share buy back program to help support increased share price. Management is forecasting increased purchases over the coming months based on projected increasing cash flows, as the New York facility is closed, and the Company reaps the benefits of reduced overhead.

No Reverse Split Planned. As previously communicated July 11, 2017, Management does not

anticipate a reverse split of the stock to achieve the increased share objective but rather is forecasting for increased sales along with future accretive acquisitions whereby the cash flow from operations can be utilized to buy the shares back in the open market.

Acquisitions. Management has targeted a number of strategic and accretive acquisitions and is varying stages of negotiations. One target is in the retail display business and complements Hopp's business model and the other is a \$8M+ revenue company in the consumer products space. As the projects develop we will provide updates on the process.

Halitron, Inc. also recently announced that it reported \$724,000 in sales for 2017 and \$407,000 in Q4 2017 alone.

Sales have increased to approximately \$407K in Q4, 2017, which represents 150% over approximately \$163K for Q3 2017. There were no sales for 2016 to compare, as the strategic acquisition is now the foundation for the team to build on.

According to OTC Markets, the current market cap of Halitron, Inc. (OTC Pink: HAON) is approximately \$2.4 million and as such, its shares can have a dramatic upside.

Other recent developments of Halitron, Inc. (OTC Pink: HAON)

Halitron, Inc. (OTC Pink: HAON) also announced the successful negotiations to modify an existing agreement to reflect the following impact on Halitron's financial books and records.

Halitron has returned 56 million restricted common shares and 80 million Life's Time Capsule Services, Inc.'s ("LTCP") Preferred Stock C shares to LTCP in exchange for the receipt of a note payable for \$3 million, bearing interest of 4%, which matures in July 2020.

In the transaction, the assets sold to LTCP in the original transaction will revert to a Halitron asset on its balance sheet. In 2020, upon receipt of the \$3 million principal and interest along with Halitron's Board of Directors' approval, Management will submit corporation action paperwork to FINRA for the issuance of a cash dividend to its shareholders, of which record, and payment dates will be announced post receipts of the settlement of the note payable for \$3 million.

Growth and shareholder valuation has always been Halitron's priority. We are excited to see the prior two years of hard work come to fruition. Halitron has been looking into other acquisition targets in many growth sectors as a further investment for our shareholders, but in order to differentiate ourselves from the masses, we will only enter into a transaction with a company that has an already established foothold in a specific growth space.
