Alexander Scourby has the greatest voice ever recorded and is the best audio book narrator bar none. The Chicago Tribune

LOS ANGELES, CALIFORNIA, US, March 26, 2018 /EINPresswire.com/ --"For many Bible believers, the first thing they look for when they get a smartphone is a Bible App. Recently even the Pope started using a Bible able and said this recently in St. Peter's Square: "Christians should care about reading God's messages in the Bible as much as they care about checking messages on their cellphones, what would happen if we turned back when we forget it, if we opened it more times a day, if we read the messages of God contained in the Bible the way we read messages on our cellphones?

This makes perfect sense because we all always have our smartphones with us, and not having one makes many of us feel incomplete. If Christians had a Bible App on their smartphones, they would have access to the Bible at all times for instant inspiration and comfort. In 700 Club News's search on the internet for Bible Apps, we found a huge number. A question came to mind, what Bible App do users believe is the best Bible App

The Chicago Tribune.

We asked two Questions:

What really sets this app apart from all the rests are two things.

(1) The Apps unparalleled features like the custom playlists, being able to share Bible Verses with family and friends, and the full search engine. Having each Bible verses in it's own mp3 files permits users to extract any verse and put it into a custom playlist. Within the playlist users can then rearrange the Bible verses in any order they so choose.

When the user hits the play button the Bible App will then play the verse back with with text and audio synced together. We found no other app with that feature.

(2) What really makes this the best app on the market is the unparalleled narration by Alexander Scourby of the King James Bible. There is simply no better narrator in the entire world.
