IMAGEWARE® SYSTEMS

GoVerifyID®

ImageWare Systems - WWW.IWSINC.COM

<http://www.prweb.com/releases/2018/02/prweb15197117.htm>

“Extenua Inc., a pioneering developer of the world’s most advanced methods of cybersecurity software purpose built for today’s hostile environments, announced the release of a new product feature of Cloud2Drive™ (“C2D”), the Company’s premier cloud storage security solution.

The new component of Cloud2Drive is a browser-based client portal that allows for access to virtual drives and files via a web interface as opposed to the traditional C2D agent software, with access controlled by a systems administrator. Originally inspired following a request to meet the requirements of a U.S. government agency, the new feature is available to any subscriber to C2D who doesn’t require the full range of functions allowed by the downloadable client software.

“The Cloud2Drive web portal is ideal for anyone who is interested in the revolutionary end-to-end cloud security provided by C2D, without requiring a full download of the C2D software,” said Extenua CTO Federico Simonetti. “This new feature is just one more way that Extenua is striving to create innovative and practical solutions for cloud security issues, while at the same time producing products that satisfy the demands of the market and our customers.”

Exciting developments at ImageWare Systems...

LifeMed ID Enters Partner Agreement With ImageWare Systems

LifeMed ID Integrates Imagewares Patented Multi-Modal Biometric Authentication Software into its Patient Authentication Software Solution for Healthcare

<https://iwsinc.com/2018/02/15/lifemed-id-enters-partner-agreement-with-imageware-systems/>

LifeMed ID, a wholly owned subsidiary of OrangeHook, Inc., (OTCIQ: ORHK) recently announced the company has entered into a partnership agreement with ImageWare Systems, Inc. (OTCQB:IWSY.) The new partnership combines LifeMed IDs Authoritative Identity Management Exchange (AIMe™), a comprehensive solution that eliminates many root causes of patient misidentification, with ImageWares powerful multi-modal biometric authentication platform GoVerifyID®.

Our partnership with ImageWare combines our proven methods of patient identity proofing with multi-modal biometrics to streamline patient authentication. As a result, we can eliminate manual processes that are the source of serious errors and continued creation of duplicate medical records,

said Rick Resnick, Co-CEO at LifeMed ID. Our token agnostic approach offers customers full flexibility to address the wide variety of existing workflows across the care continuum and allows them to evolve over time with everchanging technology. Healthcare organizations can now have the means to assure that every patient will have one identity permanently linked to the correct medical record across all points of care.

Healthcare organizations will be able to provide care with confidence knowing that they have the right medical record for each patient, said Jim Miller, CEO at ImageWare Systems. The healthcare enterprise will be enabled to operate more efficiently and the risk of medical identity fraud is drastically reduced using biometric authentication. The combination of AI Me and GoVerifyIDs biometric platform is a powerful combination that will help further assure that the correct health record is being tied to the right patient.

IOT PAYMENTS WORLD
Building Next Payment Experience beyond Mobile
March 27 & 28, 2018 – Brussels, Belgium

IoT Payments World is a two-day conference exploring the opportunities and challenges of embedding payment services in billion connected “things”. 40 speakers will address the latest innovations, case studies and market developments at the intersection of digital payments, IoT and mobile technologies. At stake: providing the customer a truly seamless, secure payment experience in Wearables, Home Appliances, Retail, Connected Car and Smart Cities scenarios. IoT Payments World aims to gather 150 attendees from Paytech and IoT industry as well as the multiple Verticals implementing IoT payments.

Government Computing 2018

<http://www.arena-international.com/govcomp/>

.....will return to London on the 19th April 2018 to discuss the latest challenges and opportunities in public sector technology. We'll be bringing together IT leaders from across central and local government to examine how the sector can meet the twin challenges of ever present budget cuts and greater demands on services. With efficiency and modernization at the forefront of government policy, the need to share experiences, success stories and new ways of working has never been greater.

connect:ID – April 30 – May 2, 2018 - WEWCC, Washington, DC

An exploration of physical and digital identity in the 21st century

connect:ID is an innovative international conference and a free global exhibition focused on all aspects of identity technologies and the opportunities for their management in both the physical and digital worlds.

connect:ID Conference - April 30 - May 2, 2018

Hear from some of the key players in the identity technology marketplace from thought leaders to end users with three days of cutting-edge revelations, future insights, case histories and panel discussions.

connect:ID Exhibition - May 1-2, 2018

Explore the latest developments and releases in identity technology solutions with 100+ exhibitors all under one roof. Entrance to the exhibition is free. For information about exhibiting please contact j.bill@sciencemediapartners.com

The event is brought to you by Science Media Partners and the International Biometrics + Identity Association (IBIA) and unites solutions adopters and stakeholders from around the world to explore the development and fusion of multiple advanced identity technologies – including biometrics, secure credentials and mobile identity systems.

Cyber Investing Summit, Tuesday, May 15th, 2018 in New York City.

www.cyberinvestingsummit.com

Now in its third year, the Cyber Investing Summit is an all-day conference exploring the investment opportunities available in the rapidly growing cybersecurity sector. The Summit differs from traditional product centered conferences by focusing primarily on the financial side of the cybersecurity industry.

The Cyber Investing Summit will take place Tuesday, May 15th in New York City. Our last two conferences were held at the New York Stock Exchange. Due to popular demand, we have outgrown the space and are moving to Convene, a premium venue in New York's Financial District.

Attendees include venture capitalists, private equity managers, CISOs, publicly traded companies, privately held firms, startups, financial analysts, institutional and retail investors, and government experts. There will also be a large media presence including Bloomberg, Barron's, Fortune, Inc., Forbes, SecuritySolutionsWatch.com, Cyber Defense Magazine, CyberWire, and Cybersecurity Ventures.

Panels will explore sector investment strategies, market growth forecasts, merger and acquisition activity, equity valuations, and funding for startups. Leading cybersecurity experts, analysts, and investors confirmed to speak at this year's Summit include:

- KEYNOTE David DeWalt, AllegisCyber, Former FireEye & McAfee CEO
- Bob Ackerman, Allegis Capital
- Rich Baich, Wells Fargo
- David Blumberg, Blumberg Capital
- Jeff Brown, BNY Mellon
- Alex Doll, TenEleven Ventures
- Shaul Eyal, Oppenheimer
- Ron Gula, Gula Tech Adventures
- Tom Kellermann, Strategic Cyber Ventures
- Jay Leek, Blackstone & ClearSky
- Eric McAlpine, Momentum Partners
- Richard Seewald, Evolution Equity Partners
- Myrna Soto, Comcast ike Steed, Paladin Capital
- Mike Steed, Paladin Capital
- Joseph Steinberg, Inc.
- Gur Talpaz, Stifel
- Alberto Yopez, Trident Capital Cybersecurity
- Dov Yoran, Cisco Systems

Several sponsorship opportunities are available, ranging in price and exposure. The larger venue offers numerous branding options, individual rooms to conduct one-on-one meetings, and spacious exhibit areas. Attached is the sponsorship sheet. Given our relationship with SSW, we would be happy to offer a 15% discount on all listed packages.

The Summit provides companies with a great opportunity to increase brand awareness and network with key influencers in the cybersecurity and financial sectors. Additional information can be found at www.cyberinvestingsummit.com.

<http://www.intelligence-sec.com/events/defence-satellites-2018>

Intelligence-Sec are pleased to announce that our 3rd annual Defence Satellites conference and exhibition will take place in Paris, France at Eutelsat's Headquarters on the 6th and 7th June 2018. To be part of our international Defence Satellites event either as a speaker, sponsor/exhibitor or delegate please email us on events@intelligence-sec.com or call us on +44 (0)1582 346 706

TRANSPORT SECURITY & SAFETY EXPO, Washington, DC, June 11-12, 2018

www.transportsecurityworld.com/events/tssx/venue

Geo IoT World 2018

Where Geolocation Powers IoT Innovation

Conference, Workshop, Exhibition – June 11-13, 2018 – Brussels, Belgium www.geoiotworld.com

Geo IoT World is the only event dedicated to the location-aware technologies for boosting IoT opportunities. Over 3 days, 70+ speakers will share their expertise and experience of High-Precision GNSS, Beacons, Computer Vision, SLAM, UWB, LPWAN, 5G, NB-IoT, Big Data, etc. to empower IoT applications in multiple Verticals such as Retail, Automotive, Industry or Healthcare. This third edition will also feature a full-day Bluetooth Beacon Masterclass while 30 exhibitors will further highlight the power of where for the IoT.

Geo IoT World 2018 will welcome 300+ attendees representing IoT, geolocation and analytics industries along with implementers in multiple Verticals.

<http://www.intelligence-sec.com/events/military-exports-compliance-europe>

Military Exports & Compliance Europe is taking place in Brussels, Belgium
on the 12th – 13th June 2018

and will provide you unrivalled access to senior EU officials who deal with export controls, compliance and regulations.

To be part of our event either as a speaker, sponsor or delegate please contact us at
events@intelligence-sec.com or +44 (0)1582 346 706.

SDW 2018 - 25-27 June, 2018 - QEII Centre, London, UK

SDW is a world-leading conference and exhibition event providing a global showcase for next-generation human identity solutions, focusing on intrinsic document security and on the new cutting-edge secure infrastructure now required to produce and use these advanced documents in live situations.

In-depth SDW Conference – 25-27 June 2018

Recognised worldwide as the pre-eminent conference for professionals involved in secure ID credentials and government-identity solutions, the three-day SDW conference brings you innovations, insight, analysis and debate direct from 75+ industry experts. The SDW conference programme covers key issues, including identity fraud, document design, travel documents, smart borders, eID, biometrics, digital and mobile ID, smart citizens and the future of identity innovations.

Free SDW Exhibition – 26-27 June 2018

The SDW Exhibition is a global showcase for the latest secure document and identity innovations and features more than 140 leading exhibitors. Visitor entry is free and includes access to our series of seminars in the Knowledge Theatre.

Connect Security World

Embedding Trust in IoT Systems and Connected Hardware

Conference & Exhibition - Sept. 25-27, 2017– Marseille Provence, France

<http://www.connectsecurityworld.com>

As IoT solutions are transitioning from hype to real deployments, the “Internet of insecure things” threat is gaining ground. To address unlimited risks, threats and vulnerabilities surrounding IoT, a new generation of connected devices and services is required, with better security and privacy by design. In its 6th edition, Connect Security World invites both digital security experts and IoT developers to discuss and define a true end-to-end security, from sensors to Cloud, from design and development to deployment.

Key 2017 themes include:

- Embedding Security in billion devices: SW/HW approaches
- New IoT networks security: LPWAN, 4G/5G...
- Cost of security: Time to market vs secure design
- IoT security regulation: industry and governments role

Joining Connect Security World offers the opportunity to meet and exchange with 350+ professionals: experts from security research and industry, associations, standards bodies as well as IoT stakeholders from manufacturing to digital services. Within Smart Security Week

www.smartsecurityweek.com , they will benefit from additional synergies of contents and networking opportunities.

About SecuritySolutionsWatch.com

www.SecuritySolutionsWatch.com features thought leadership interviews about blockchain, IoT and security solutions. Our flagship “In The Boardroom” program is now in its 15th year.
