

Software License Management Market 2018 Global Share,Trend,Segmentation and Forecast to 2020

PUNE, INDIA, March 7, 2018 /EINPresswire.com/ --

WiseGuyReports.Com Publish a New Market Research Report On –“ Software License Management Market 2018 Global Share,Trend,Segmentation and Forecast to 2020”.

Description:

The analysts forecast the global software license management market to grow at a CAGR of 8.8% during the period 2016-2020.

The major drivers for the adoption of software licensing are piracy and malware. Software licensing acts as an agreement to solve these issues. It provides the rights to use packaged software or components of software. The use of a software without proper licensing would constitute an infringement of copyright laws. All enterprise applications are offered to end-users through licenses. Software licenses are of different types; some are based on the number of users that are allowed to use the program and others are based on the number of systems on which a program can be run.

Covered in this report

The report covers the present scenario and the growth prospects of the global software license management market for 2016-2020. To calculate the market size, Technavio considers the revenue generated from the total consumption of global software license management market. The report does not include revenue generated from the aftermarket service of the product.

The report, global software license management market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Flexera Software
- Reprise Software
- SafeNet
- Snow Software
- Wibu-Systems

Other prominent vendors

- Agilis
- IBM
- InishTech
- License4J
- ManageEngine
- Moduslink
- Persistent Security
- X-Formation

Market driver

- Increasing license compliance audits
- For a full, detailed list, view our report

Market challenge

- Managing multiple licensing models
- For a full, detailed list, view our report

Market trend

- Growing virtualization of desktops
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Impetus to software license management
- Overview of licensing methods

PART 05: Assumptions

PART 06: Market size and forecast

PART 07: Market segmentation by form factor

- Hardware-based enforcement
- Software-based enforcement

PART 08: Market segmentation by deployment model

- Global software license management market by deployment model

PART 09: Geographical segmentation

- Analysis of software license management market by region
- EMEA
- Americas
- APAC

PART 10: Market drivers

- Increasing license compliance audits
- Need to reduce piracy issues
- Growing importance of visibility of licenses used across enterprises

PART 11: Impact of drivers

PART 12: Market challenges

- Managing multiple licensing models
- Lack of internal cross-functional collaboration
- Data security and privacy issues of cloud-based solutions

PART 13: Impact of drivers and challenges

PART 14: Market trends

- Growing virtualization of desktops
- Emergence of utility-based pricing model
- Rise of cloud governance
