

Bitcoiin B2G reaches ICO Soft Cap

This milestone represents global acceptance of the second-generation, Ethereum-based blockchain technology Bitcoiin B2G was built on.

HONG KONG, CHINA, March 9, 2018 /EINPresswire.com/ -- [Bitcoiin B2G](http://www.bitcoiin.com) (www.bitcoiin.com) announces it has reached its \$75,000,000 soft cap, thus funding the ICO planned to open for public trading later in March 2018. This funding level, which represents global participation in the opportunity provided by Bitcoiin B2g, allows the ICO to proceed according to the original schedule.

Bitcoiin B2G announces its thanks to all its participating depositors.

Bitcoiin B2G announces its thanks to all its participating depositors. We remain excited about the long-term future of this second-generation cryptocurrency. Reaching our \$75,000,000 goal in token sales so early has emboldened our aspirations for the long-term bullish growth of Bitcoiin B2G.

What does this "soft cap" mean? It means all the infrastructure, mining rig construction, marketing and website infrastructure is funded. More importantly, this milestone represents global acceptance of the second-generation, Ethereum-based blockchain technology Bitcoiin B2G was built on.

What lies ahead? First, savvy players can still purchase Bitcoiin B2G tokens at the \$5.00 price, at least until the \$250,000,000 hard cap is reached. Our forecasts had set that \$250M milestone off in the distance. But the original ICO sellout indicates some urgency for depositors wishing to catch the Bitcoiin B2G wave. For now, the \$5.00 price stands.

Our Bitcoiin B2G timeline has set an April 2018 goal for availability of our Windows/Mac wallet launch. After that solution has deployed, our development of ancillary supporting software will follow. Our continuing efforts to obtain Bitcoiin B2G acceptance by retailers and service providers, we hope, will bear fruit. Meanwhile, our trading platform still will provide a solution for converting Bitcoiin B2G into original bitcoin, for those retailers and service providers who still only accept original bitcoin.

A Unique Opportunity: Cryptocurrency enthusiasts, depositors and adventurers have seldom had such a chance to participate in the exhilarating launch of an integrated cryptocurrency ecosystem, with built-in controls, strong management and explosive upside growth potential.

Bitcoiin B2G announces the second generation of cryptocurrency. Catch the wave, on Sirius XM Radio.
