

# Save Our Community, Inc and WAWELA Cancer Support, Announce Partnership

*Dallas, Texas-based organizations aim to eradicate cancer, offer workshops and seminars which focus on prevention, nutrition, fitness, and emotional wellness*

DALLAS, TEXAS, UNITED STATES, March 10, 2018 /EINPresswire.com/ -- Save Our Community ([SOC](#)), a dedicated team of [cancer](#) prevention experts and [WAWELA Cancer Support](#) have forged a strategic partnership that expands their reach to under-served patients, families, and organizations battling cancer, their publicist announced today.

The Dallas, Texas-based organizations say their aim is to eradicate cancer by offering educational workshops and seminars which focus on prevention, nutrition, fitness, and emotional wellness. Speakers, medical doctors, nutritionists, performing artists, volunteers, educators, and cancer survivors are scheduled to present.

"Although we live in a country that has so much to offer cancer prevention was missing," stated James Hawkins, Founder of Save Our Community Inc. Hawkins said he leveraged his pain from losing friends and loved ones to cancer and formed his organization.

Fran Briggs, Publicist to the organizations, said that "Save Our Community (SOC) and WAWELA Cancer Support teach that prevention strategies and education are remarkably effective at lowering the risk of most types of cancer. The local area and entire country are patiently waiting for their resources."

To that end, the two organizations also announced a call for sponsorships. They offer individuals, businesses, brands, and groups exciting opportunities to connect with their consumers and markets by sponsoring their local, national, and international events.

Save Our Community (SOC) and WAWELA Cancer Support say their collective goal is to offer solution-oriented and inspiring tools to change the way people challenged by cancer are served.

"By joining forces we bridge the gap and reduce the number of lives that are falling through the cracks because of demographics, lack of education and ethnicity," explained Patricia McCoy, CEO of WAWELA Cancer Support Services. "Our seminars and workshops are a great way to teach and inspire people about cancer prevention, hope, and recovery."

McCoy says that Save Our Community and WAWELA Cancer Support distinguish themselves from similar groups because they are willing to get in the trenches to offer direction and expertise which save lives, and rescue millions who opt to "wait for a cure."

#### ABOUT SAVE OUR COMMUNITY

Save Our Community (SOC) is a demonstration of love in action. Its mission is to educate communities about cancer prevention. The organization offers free monthly seminars, educational training. Through collaboration and partnerships with other non-profit organizations, SOC upholds their mission of changing the health of communities and impacting impoverished communities across the country.
