

Global Wind Energy Market Research and Forecast, 2018-2023

Global wind energy market, Size, Share, Market Intelligence, Company Profiles, Market Trends, Strategy, Analysis, Forecast 2018-2023

INDORE, INDIA, March 12, 2018 /EINPresswire.com/ -- Orion Market Research (OMR), recently published a market research report on the global Wind energy market. According to the OMR analysis, the global Wind energy market is expected to grow impressively at with a CAGR of 12.8% during 2018-2023. The global Wind energy market has been growing impressively due to rising green energy demand. The global Wind energy market is segmented on the basis of wind energy, end user and geography. The report provides detailed and insightful chapters on market overview, key findings, strategic recommendations, market estimations, market determinants, key company analysis, market insights, company profiling, market segmentation, geographical analysis, analyst insights and predictive analysis of the market.

The full report of Global Wind Energy Market is available at <https://www.omrglobal.com/industry-reports/wind-energy-market/>

“

Rising green energy demand has been propelling the market growth”

OMR Analyst

“Depleting fossil fuel resources, price fluctuations and rising pollution has forced the governments and corporate globally to move their focus towards renewable energy. 2009 Copenhagen Summit and 2015 Paris Agreement have focused on reducing the carbon emission and move towards a sustainable energy based global economy. Wind energy has been one of the focal areas in the renewable energy industry. Global energy consumption in 2017 touched approximately

1,400 TWh.”

In terms of revenue, Asia Pacific will have the highest market share. Asia Pacific market is driven by the dominance of China. The growth in Chinese wind energy segment has been exceptional since 2014. Chinese companies have emerged backed by government policies and funds. India is also a major contributor to the growth of Asia Pacific. However, due to losses incurred by India's largest wind energy equipment firm Suzlon, market growth was affected. Europe has been a traditional powerhouse in renewable energy. Common directives from EU provide a standardized environment for wind energy equipment companies. European governments have designed a feed-in-policy which has also contributed to the growth of European market. European countries are also moving towards the [offshore wind](#) market. The north American market is dominated by the United States which is

second in terms of installed capacity. Wind Energy market will take significant strides in the forecast period and later due to rising awareness regarding green energy.

Companies Profiled in the Report:

- Aegis Wind LLC
- Ainscough Wind Energy Services Ltd
- Areva Wind GmbH
- Aris Wind Llc
- Berkshire Hathaway Energy
- Broadwind Energy Inc.
- Clipper WindPower Inc.
- Ge Wind Energy LLC
- Inox Wind Ltd
- Leitwind AG
