Full report of global cardiac ablation market is available at <https://www.omrglobal.com/industry-reports/cardiac-ablation-market/>

“The global cardiac ablation market is primarily driven by the rising [CVD](#), CHD and other heart-related diseases across the globe. Along with it, increasing geriatric population will increase the incidence and prevalence of heart diseases since older people are prone to heart diseases.

“

Increasing incidence and prevalence rate of cardiovascular diseases driving the global cardiac ablation market”

OMR Analyst

Rising incidence and prevalence rate of CVD is one of the major concerns which is creating an economic burden on global economies. According to WHO, in 2015 alone more than 17.7 million people lost their lives due to CVD, representing 31% of all global fatalities. Out of which around 7.4 million mortalities were due to coronary heart disease (CHD) and 6.7 million were due to stroke. Cardiac ablation is majorly used in the treatment of CVD and other heart

diseases. Therefore, increasing prevalence of CVD are predicted to drive the growth of cardiac ablation market. Additionally, increasing geriatric population across the globe is also one of the major factors that is augmenting the growth of cardiac ablation market.
