

Panel Built Offers a Sound Financial and Environmental Investment with Solar Canopy System

Using a bolt-together steel canopy system, Panel Built offers a resourceful solution to companies' energy needs.

BLAIRSVILLE, GEORGIA, UNITED STATES, March 13, 2018 /EINPresswire.com/ -- [Panel Built, Inc.](#), a modular construction company, now offers a quick, practical, and resourceful solution for companies' energy needs. The canopy systems Panel Built manufactures, have a variety of applications ranging from carports to walkways. By adding solar panels to the tops of the canopies, companies can create and store energy for them to use, while also offering shelter from sun damage and inclement weather. The [solar canopies](#) use Panel Built's bolt-together steel system, similar to their standard steel mezzanines.

Solar Canopy System

Completely fabricated in Panel Built's manufacturing facility, the structures are installed at the job site in a fraction of the time as traditional construction. In addition to their environmental benefits, the canopy structures offer a sound financial investment for companies by allowing them to fully recoup their initial investment and save money over the long term. Now, companies can turn their parking lots and decks into a space that benefits their bottom line and society as a whole. All systems are custom made and come in flat, ascending, or descending designs.

Panel Built was founded in 1995 by brothers Pat and Mike Kiernan and began with the construction of pre-manufactured buildings. Today, Panel Built offers a complete line of custom modular offices, mezzanines, security booths, pre-assembled exterior buildings, and cleanrooms. All our multiple product lines are produced on site, in four state-of-the-art manufacturing facilities. We offer "A Better Way to Create Space" for all of your building projects. Our mission is "To Solve our Customers' Space Needs with Excellence and Great Customer Service."
