

# ARE YOU DREAMING? OR IS IT REAL?

*GYPSY LOVE: DREAM OR REALITY? FROM PIUBOOK,  
PUB DATE MARCH 2018*

BOCA RATON, FL, ESTADOS UNIDOS, March 14, 2018  
/EINPresswire.com/ -- In the second half of the 17th century in Spain, a story of soul mates who suffer and fight against prejudice, social rules, and politics is a story of love and magic, tragedy and humor, dreams and reality.

There's mystery: a baffling otherworldly/alternative reality overtakes the main character....but he cannot discern if it's a dream, or it's really happening.

There's a love story for the ages that takes ages for the lovers to blissfully revel in their romance.

There's humor: but I don't want to give that away!! It's unexpected and so much fun.

There are terrifying fistfights, gunfights, knife fights, fires, drownings, and illness.

There are deaths and births.

There are tears and laughter.

There is spirituality, a great love of God and his gifts to us.

There are Romany Gypsies: exotic, magical, mystical, musical, beautiful with lives that stay within their own community until that community is threatened.

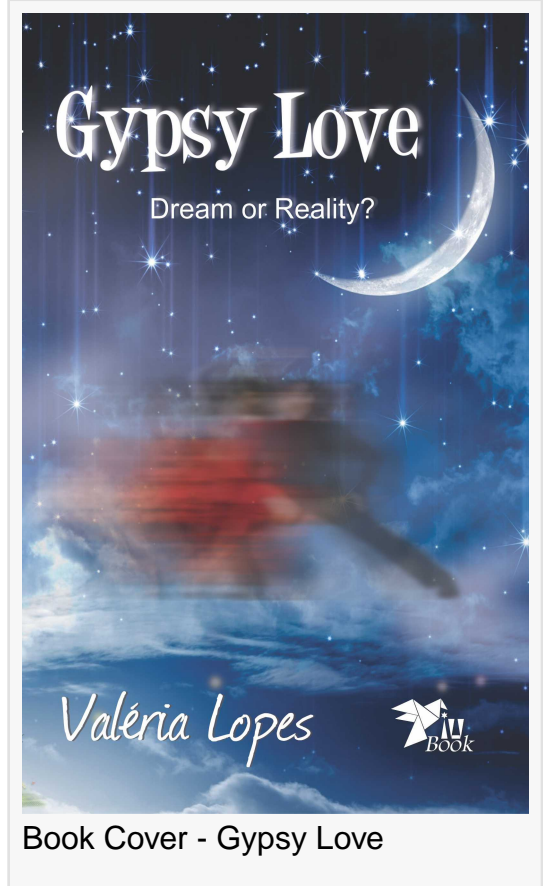

There are prejudices, hatred, jealousy, and distrust.

There are politics and intrigue.

There are social conventions, customs, and rules.

There are bad "guys" who work to hurt and separate our lovers.

There are good-bad "guys," men who aren't evil, but who haven't yet accepted the truths of their lives, and instead face those truths with anger, desperation, jealousy, hatred and other nasty traits. And yes, we see that if anger, hatred, jealousy and all those other nasty personality traits are that person's way of dealing with whatever life throws at him (or her), then it's simply going to come back. Yes, karma comes back.

And this broad and deep story shows that reincarnation gives us all the opportunity to reset our karma. It's no secret that love trumps hate. It's no secret that acceptance and forgiveness are the way to a beautiful, blessed life. And it's no secret that a dream may be reality. Or that reality may be a dream. Which is which?
