

# ARES PRISM Is Taking The Mining Industry By Storm

*Mining companies choose ARES PRISM for their project management. Greenstone Gold, De Beers & Resolute Mining have all begun implementing ARES PRISM software.*

BURLINGAME, CA, UNITED STATES, March 13, 2018 /EINPresswire.com/ -- More and more mining companies are embracing ARES [PRISM](#) as their project management solution. [Greenstone](#) Gold Mines, [De Beers](#) Canada and Resolute Mining have all recently begun implementing the ARES PRISM suite of software. ARES PRISM provides these companies with a robust solution to manage their project costs, aligning them to achieve success.

Mining Project Management Software

All three organizations are implementing the PRISM Cost Module which is capable of integrating (Primavera P6) project schedules and cost estimates to develop time-phased budgets and forecasts, as well as measuring (Earned Value EVM) performance and productivity using cost, hour, and quantity control elements. By harnessing the power of the ARES PRISM solution, these mining companies can be confident in the vital cost data that they use to manage their projects every day. Greenstone Gold Mines has also decided to implement PRISM Contacts, Procurement, and Docs to help them manage all aspects of their projects effectively.

ARES PRISM is excited to be expanding further into the global mining industry. Over the past few years, this industry has experienced a wealth of challenges with fluctuating commodity prices. ARES PRISM is eager to help the mining industry to manage their projects and attain excellence in the 2018 year.

#### ABOUT DE BEERS CANADA:

Since 1888, De Beers has been involved in all aspects of the diamond business. From its mining operations across Africa, and most recently Canada, the company produces about 35 percent of the world's supply of rough diamonds. De Beers has been active in Canada for more than 50 years, growing from a small group of geologists in the field to having multiple offices and operations across the country. De Beers has one producing mine, a mine in care and maintenance, a third mine under construction and a targeted exploration strategy within Canada.

#### ABOUT GREENSTONE GOLD MINES:

Greenstone Gold Mines is a 50/50 partnership between Centerra Gold Inc. and Premier Gold Mines Limited for the joint ownership and development of the Hardrock, Brookbank and Viper Properties. The properties located in the Geraldton-Beardmore Greenstone Belt in Ontario, Canada are made up of several claim groups having a cumulative length of more than 105 kilometers of the district's most prospective geological structures. Greenstone Gold Mines' objective is to become a gold producer, focused on the environment and social responsibility.

#### ABOUT RESOLUTE MINING:

Resolute is a proven gold producer with over 25 years' experience of continuous gold production, exploration, development and innovation. The Company has operated nine gold mines across Australia and Africa which have produced in excess of 8 million ounces of gold. Resolute currently operates two mines, the Syama Gold Mine in Mali, West Africa and the Ravenswood Gold Mine in Queensland, Australia, and is one of the largest gold producers listed on the Australian Securities.

**ABOUT ARES PRISM:**

ARES PRISM is an enterprise project lifecycle management solution that supports the planning, execution, and completion of capital projects for dependable forecasts, cost control, and performance measurement. As an out-of-the-box solution, you can experience the benefits of PRISM quickly with simple and fast implementation. PRISM is a robust and mature system that offers Cost, Change, Estimating, Engineering, Procurement, Contracts, Field, Dashboard, Docs, and Integrator modules. PRISM aligns the project budget and schedule, provides change management workflow and delivers accurate reports and dashboards so that you have the transparency required to pinpoint potential problems and make strategic decisions.
