

OnPage Corporation Appoints Paul Sullivan as VP of Strategic Alliances

OnPage Corporation announces new VP of Strategic Alliances with the goal of creating ties with new organizations and industries.

WALTHAM, MASSACHUSETTS, UNITED STATES, March 15, 2018 /EINPresswire.com/ -- OnPage Corporation is pleased to announce that Paul Sullivan has joined the company as its new VP of Strategic Alliances. Paul comes to the company with the goal of establishing ties with new organizations and creating alliances with industry associations.

OnPage Corporation's CEO Judit Sharon said of Paul: "Paul's wealth of experience and industry knowledge has already made him a key addition to the OnPage Company family. We view his appointment as a sign of our commitment to being the leading company in our industry. Our new innovations and the increasing demand from our customers led us to look for an addition to our team who will fit in with our ethos of innovation and exceptional service, and it is very fortunate that we were able to find someone of Paul's caliber to fulfill this role. I'm confident that Paul will play a key role in providing and implementing high quality solutions for our clients."

Paul Sullivan - OnPage's new VP of Strategic Alliances

Prior to OnPage, Paul Sullivan served as SVP for Agility Recovery Solutions. In this role, Paul provided strategic direction, channel partner management, service delivery, mobile operations and product market management in the U.S. and Canada. At Agility, Paul was also responsible for developing an alliance program for partners, expanding into work with SMBs, managing strategic enterprise accounts and helping drive cultural change.

“

I am excited to start a new challenge with OnPage and look forward to working with the team to further develop their account base and create partnerships with new association across the country.”

Paul Sullivan

Additionally, Paul has 25 years of extensive product management along with experience in creating partner alliances, sales support experience for IT services and Business Continuity industries. Paul is a visionary leader who has initiated business turnarounds from a commodity to services-based models and developed and enhanced product partnerships and alliances. Prior to joining Agility, Paul was with IBM for 2 years as General Manager of Business Resilience and Continuity services in Canada. Prior to IBM, Paul spent 13 years with Comdisco Continuity Services with the last 4 years based out of Chicago as SVP of Product Development, Sales Support and Marketing.

On joining OnPage, Paul remarked that:

“I am excited to start a new challenge with OnPage and look forward to working with the team to further develop their account base and create partnerships with new association across the country. I am fortunate to be joining such a respected organization with deep ties in incident management, clinical communications, managed services and IoT. I look forward to helping the company achieve significant growth in the months and years to come.”

Paul noted he also looks forward to opening up new verticals for OnPage through alliances, endorsements and industry organizations. These associations will serve to bolster OnPage’s existing deep ties in healthcare, managed services, IT, IoT and beyond.

About OnPage Corporation

[OnPage is](#) the industry leading HIPAA secure Incident Alert Management System. Built around the incident resolution lifecycle, OnPage unique ALERT-UNTIL-READ for up to 8 hours enables organizations to get the most out of their digitization investments, ensuring that sensors, monitoring systems, and people have a reliable means to escalate anomaly notification to the right person immediately.

OnPage’s escalation policies, redundancies, and scheduling algorithms ensure that a critical message is never missed. Infinitely more reliable and secure than emails, text messages and phone calls combined, OnPage reduces incident resolution time by automating the notification process, reducing human errors, thereby improving productivity and advancing the digital operations of your business.

Whether to minimize IT infrastructure downtime, or to minimize response time of healthcare providers in life and death situations, organizations are heavily relying on OnPage for all their secure, HIPAA compliant, critical notifications needs.
