

Global Bladder Cancer Market Research and Forecast 2018-2023

Global Bladder Cancer Market, Size, Share, Market Intelligence, Company Profiles, Market Trends, Strategy, Analysis, Forecast 2018-2023

INDORE, INDIA, March 15, 2018 /EINPresswire.com/ -- [Global Bladder cancer market](#) is a tumour, which starts in the cells of the bladder. Factors such as increasing incidence of bladder cancer fuel the growth of the market. As per American Medical Association, a growth of 31% in global bladder cancer has been recorded in 2015 as compared to 2005. Furthermore, rise in awareness about cancer and their available therapies, increasing healthcare expenditure, growing smoking and tobacco consumption are also motivating the market.

Sometimes, bladder cancer is asymptomatic in nature, due to which patients can't get diagnosed in the due course of time. It is the major restrain for the market. Cisplatin is a generic drug available for the treatment of bladder cancer. It is being manufactured all across the globe. Besides that, various companies are getting FDA approval of new drugs for bladder cancer and numerous drugs are being sent for clinical trials. Hence, innovation in drug development, subsequent technological advancements, and pipeline products are expected to find immense opportunity during the forecast period.
