

# IBM Turnaround Coming - Blockchain will Play Major Role in Turnaround New Report 2018

---

PUNE, INDIA, March 16, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "IBM Turnaround Coming - Global Thematic Research"

IBM Turnaround Coming

Overview:

In 2016, we think IBM's shares are due for a re-rating - investors will start to value IBM as an emerging software leader rather than a legacy hardware player. Like SAP and Oracle, many of IBM's legacy businesses - especially Enterprise Resource Planning (ERP) systems - are struggling to adapt to a world moving rapidly to cloud-based services. The company is at the final stages of a difficult transition, but most of the bad news around this transition is now in the price of IBM's shares.

In this report, we will look at the themes that will send IBM shares up in 2016 and its valuation and risk screen.

Top Companies mentioned

IBM

Major Scope Of the Report:

This report is part of our ecosystem of thematic investment research reports, supported by our "thematic engine".

About our Thematic Research Ecosystem

The Research has developed a unique thematic methodology for valuing technology, media and telecom companies based on their relative strength in the big investment themes that are impacting their industry. Whilst most investment research is underpinned by backwards looking company valuation models, thematic methodology identifies which companies are best placed to succeed in a future filled with multiple disruptive threats.

To do this, tracks the performance of the top 600 technology, media and telecom stocks against the 50 most important themes driving their earnings, generating 30,000 thematic scores. The algorithms

in 's "thematic engine" help to clearly identify the winners and losers within the TMT sector. Our 600 TMT stocks are categorised into 18 sectors.

Each sector scorecard has a thematic screen, a risk screen and a valuation screen. Our thematic research ecosystem has a three-tiered reporting structure: single theme, multi-theme and sector scorecard. This report is a Multi-Theme report, covering all stocks, all sectors and all themes, giving readers a strong sense of how everything fits together and how conflicting themes might interact with one another.
