

Ovarian Cancer Market 2018 Global Industry Key Players, Share, Trend, Segmentation and Forecast to 2025

Ovarian Cancer Market –Market Demand, Growth, Opportunities, Analysis of Top Key Players and Forecast to 2025

PUNE, INDIA, March 16, 2018 /EINPresswire.com/ -- Ovarian Cancer Market 2018

Wiseguyreports.Com adds “Ovarian Cancer Market –Market Demand, Growth, Opportunities, Analysis of Top Key Players and Forecast to 2025” To Its Research Database.

Report Details:

This report provides in depth study of “Ovarian Cancer Market” using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization. The Ovarian Cancer Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

Black Swan Analysis Epiomic™ Epidemiology Series Forecast Report on Ovarian Cancer in 17 Major Markets

Ovarian Cancer begins in the ovaries, resulting from abnormal cells that have the ability to spread to other parts of the reproductive system and, in advanced stages, other parts of the body. The cause for Ovarian Cancer is not currently known, most DNA mutations for ovarian cancer are acquired genetic changes, however a link still has not yet been found to any environmental factors that may cause the mutation.

This report provides the current incidence population for Ovarian Cancer across 17 Major Markets (USA, France, Germany, Italy, Spain, UK, Brazil, Japan, India, Australia, Canada, Mexico, Turkey, South Africa, Saudi Arabia, Argentina and Russia) split by gender and 5-year age cohort. Along with the current incidence, the report provides an overview of the stages, grades and associated Charlson Co-morbidity scoring of Ovarian Cancer. The report also contains a disease overview of the risk factors, disease diagnosis and prognosis along with specific variations by geography and ethnicity.

Providing a value-added level of insight from the analysis team at Black Swan, several of the main symptoms and co-morbidities of Ovarian Cancer have been quantified and presented alongside the overall prevalence figures. These sub-populations within the main disease are also included at a country level across the 10-year forecast snapshot.

Main symptoms and co-morbidities for Ovarian Cancer include:

- Diabetes
- Myocardial Infarct
- Mild Liver Disease
- Congestive Heart Failure
- Dementia

This report is built using data and information sourced from the proprietary Epiomic patient segmentation database. To generate accurate patient population estimates, the Epiomic database utilises a combination of several world class sources that deliver the most up to date information from patient registries, clinical trials and epidemiology studies. All of the sources used to generate the data and analysis have been identified in the report.

Reason to buy

- Able to quantify patient populations in global Ovarian Cancer's market to target the development of future products, pricing strategies and launch plans.
- Gain further insight into the prevalence of the subdivided types of Ovarian Cancer and identify patient segments with high potential.
- Delivery of more accurate information for clinical trials in study sizing and realistic patient recruitment for various countries.
- Provide a level of understanding on the impact from specific co-morbid conditions on Ovarian Cancer's prevalent population.
- Identify sub-populations within Ovarian Cancer which require treatment.
- Gain an understanding of the specific markets that have the largest number of Ovarian Cancer patients.

This report has a complete understanding of market value and quantity, technological progress, macro-economic and governmental policy based on past and present data along with the current and upcoming trends in the market.

If you have any special requirements, please let us know and we will offer you the report as you want.

Major Key Points in Table of Content:

Table of Contents

- List of Tables and Figures
- Introduction
- Cause of the Disease
- Risk Factors & Prevention
- Diagnosis of the Disease
- Variation by Geography/Ethnicity
- Disease Prognosis & Clinical Course
- Key Co-morbid Conditions Associated with the Disease
- Methodology for Quantification of Patient Numbers
- Top-Line Ovarian Cancer Incidence
- Stages and Grading of Ovarian Cancer
 - o FIGO Staging of Ovarian Cancer
 - o Charlson Co-Morbidity Index and Ovarian Cancer
 - o Histopathology of Tumour Cells in Ovarian Cancer
- Abbreviations and Acronyms used in the Report

- Other Black Swan Analysis Publications
- Black Swan Analysis Online Patient-Based Databases
- Patient-Based Offering
- Online Pricing Data and Platforms
- References
- Appendix

List of Figures

- Ovarian Cancer Incidence Rates for 2015

List of Tables

- AJCC Tumour Grading Classification for Ovarian Cancer
- FIGO Stage Descriptors of Ovarian Cancer
- Charleston Co-morbidity Scoring Classification of Ovarian Cancer
- Incidence of Ovarian Cancer, females (000s)
- AJCC Stage at diagnosis for Ovarian cancer patients, females (000s)
- FIGO staging in Ovarian Cancer patients, females (000s)
- Stage I FIGO subtypes in Ovarian Cancer patients, females (000s)
- Stage II FIGO subtypes in Ovarian Cancer patients, females (000s)
- Stage III FIGO subtypes in Ovarian Cancer patients, females (000s)
- Charleston Co-morbidity Scores for Ovarian Cancer patients, females (000s)
- Major histopathological type in Ovarian Cancer patients, females (000s)
- Adenocarcinoma subtypes in Ovarian Cancer patients, females (000s)
- Abbreviations and Acronyms used in the Report
- USA Incidence of Ovarian Cancer by 5-yr age cohort, females (000s)
- France Incidence of Ovarian Cancer by 5-yr age cohort, females (000s)
- Germany Incidence of Ovarian Cancer by 5-yr age cohort, females (000s)
