YoStartups*

Technology is definitely changing the PropTech of here and how business is done in the real estate sector. The most recent property boom is driven by the new generation buyers that prefer online methods and tech-savvy methods over traditional processes of newspaper ads and tiring personal visits over time. New technologies are taking over like live streamed auctions, drone footage, 3D floor plans, video walk-through and virtual inspections. Social media and online marketing too are picking up in the space of real estate tech in Australia. Some of the interesting startups in this space are:
