Restaurant Magic Successfully Completes Type 2 SOC 1 Examination

Restaurant Magic Software announced today that it has successfully completed a Type 2 SOC 1 Examination for its Data Central Software.

TAMPA, FL, USA, March 19, 2018 /EINPresswire.com/ -- Restaurant Magic Software announced today that it has successfully completed a Type 2 SOC 1 Examination for its Data Central Software. The examination was performed by Schellman & Company, LLC in accordance with attestation standards established by the American Institute of Certified Public Accountants (AICPA). The examination was completed during the September 1, 2017, to February 28, 2018 review period.

> "Our team at Restaurant Magic is fully committed to ensuring the effectiveness of our design, operating, and security controls."
>
> *Drew Peloubet, CEO of Restaurant Magic*

SOC 1 examinations are performed by licensed CPA firms to review controls that a service organization implements to prevent, detect, or correct, errors or omissions in the information it provides to user entities. Service Organization Control (SOC) 1 reports are conducted in accordance with Statement on Standards for Attestation Engagements (SSAE) 18, Reporting on Controls at a Service Organization. SSAE 18 replaced the SSAE 16 and SAS 70 auditing standard in the 2017 calendar year.

"We are very excited about completing our SOC examination," said Drew Peloubet, CEO of Restaurant Magic. "Our team at Restaurant Magic is fully committed to ensuring the effectiveness of our design, operating, and security controls."

About Restaurant Magic
Data Central® by Restaurant Magic is a suite of back office applications designed to help restaurant managers achieve peak operational and financial efficiency. Data Central® leverages business intelligence and automation technologies to decrease food costs, manage labor and improve overall customer service. The software integrates information from existing POS, inventory, supply, payroll and accounting systems to provide a comprehensive view of your operations. The Data Central® platform allows for easy system-wide deployment of updates, configurations, recipe changes and other information. Most important of all, the solution is mobile friendly, providing browser level access to all store level functions.

Restaurant Magic was founded over 20 years ago with a single vision of providing restaurant operators better access to their operational data. With this access, operators can make faster decisions, optimize schedules, implement predictive ordering, and create a positive impact on their bottom line. Restaurant Magic provides insight to some of the largest multi-unit franchises in the world, including First Watch, The Melting Pot, California Pizza Kitchen, and Cousins Subs. If you are interested in finding out more about Restaurant Magic or scheduling a demo of our software visit www.RestaurantMagic.com or call 1-800-933-4711.
