

China Tech Market - Major Players & Government Sector are Making Heavy Investment in Manufacturing & Technology

PUNE, INDIA, March 20, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "China Tech presentation 2017 - Global Thematic Research"

China Tech presentation

Overview:

China's government is intent on upgrading its manufacturing sector and leading the world in a range of advanced technologies. Implicit in its "Made in China 2025" 10-year plan is the notion that China will displace the US as the world's dominant technological power.

The 10 year plan has specifically targeted high tech industries and given China's national champions government backing and funding to develop their tech businesses. Many of China's tech leaders - whether Tsinghua Unigroup in chips or Huawei in telecom equipment or BGI in genomics - are heavily government backed.

Many of today's advanced technologies - like AI or genomics - require a lot of data to work well. China's population gives it more data than either the US or Europe to speed up its R&D process. Moreover, the sheer number of data scientists that China has at its disposal has grown to an impressive level.

Qunar

Major Scope of the Report:

About our Thematic Research Ecosystem

- The has developed a unique thematic methodology for valuing technology, media and telecom companies based on their relative strength in the big investment themes that are impacting their industry. Whilst most investment research is underpinned by backwards looking company valuation models, thematic methodology identifies which companies are best placed to succeed in a future filled with multiple disruptive threats.

To do this, tracks the performance of the top 600 technology, media and telecom stocks against the 50 most important themes driving their earnings, generating 30,000 thematic scores. The algorithms in "thematic engine" help to clearly identify the winners and losers within the CHINA TECH PRESENTATION sector. Our 600 CHINA TECH PRESENTATION stocks are categorised into 18 sectors.

Each sector scorecard has a thematic screen, a risk screen and a valuation screen. Our thematic research ecosystem has a three-tiered reporting structure: single theme, multi-theme and sector scorecard. This report is a Multi-Theme report, covering all stocks, all sectors and all themes, giving readers a strong sense of how everything fits together and how conflicting themes might interact with one another..
