

NEW OPTIONS FOR SELECT SAFE-WAY DOORS

Continuing their commitment to quality and innovation.

WARSAW, INDIANA, USA, March 20, 2018 /EINPresswire.com/ -- Safe-Way Door, an American garage door company, announces its latest updates to two of its best selling door lines. To stay ahead of consumer color demands, Safe-Way's Ambient and Regency series of garage doors are now available in black. The superior thermal performance of Ambient's high density polyurethane foam provides added strength, performance and durability combined with ease of use, low maintenance and an R-value of 17.68. With the addition of black as an available color, the design possibilities have increased as a suitable door for new construction and remodel projects for both residential and commercial applications for discerning consumers that desire a more personalized signature look for their residential / commercial properties.

“

Adding black to the color palette of both the Ambient and Regency Series doors will allow many more consumers to enjoy a custom look in their garage doors”
Billy Thompson

The Regency Series of Garage doors combine the strength of steel and the beauty of wood-like design. Sandwiched between steel skins is 2” of expanded polystyrene that give an R-value of 10.25, the Regency is a very popular door model used across the country.

According to Billy Thompson, Vice President of sales, “Adding black to the color palette of both the Ambient and Regency Series doors will allow many more consumers to enjoy a custom look in their garage doors that before was simply not available from a factory finish.”
