

Nor-Tech Named Top HPC Cluster Computer Builder for Data Centers by CRN for 2nd year.

Nor-Tech was just named to CRN's list of the top 40 Data Center Infrastructure Providers—joining ranks with IBM, Oracle, Dell and Supermicro.

MINNEAPOLIS, MINN., UNITED STATES, March 20, 2018 /EINPresswire.com/ -- Nor-Tech, one of the world's leading custom supercomputer builders, was just named to CRN's list of the top 40 Data Center Infrastructure Providers—joining ranks with IBM, Oracle, Dell and Supermicro.

Nor-Tech Vice-President Jeff Olson said, "We are pleased to be included among the biggest names in the technology industry for the second year in a row. We appreciate the recognition by CRN, which has always been an important source of industry information for Nor-Tech, our partners and our clients."

In announcing the list, CRN stated, "Hardware and software vendors are simplifying data center operations through hyper-convergence and products that optimize applications unlike ever before. A broad range of infrastructure technologies are needed for solution providers to deliver the products and services to achieve customer success while also building a tighter relationship."

CRN, a property of The Channel Company, is a leading source for breaking news, cutting-edge opinion from channel leaders and technical analysis. The list is featured in the February 2018 issue and online.

“

We are pleased to be included among the biggest names in the technology industry for the second year in a row.”

Nor-Tech Vice President Jeff Olson

In addition to inclusion on last year's list, Nor-Tech was previously honored with Microsoft's Most Valuable System Builder Partner Award, which is given to only one organization each year. The award honors the OEM system builder that delivers superior customer value as well as key support services. Nor-Tech has also been an HPCwire award finalist for the past three years. .

“These awards are an important confirmation of our reputation for industry-leading technology, expertise and client service,” Olson said.

Nor-Tech is a cluster builder for 2015 and 2017 Nobel Physics Award-winning projects. Engineers average 20+ years of experience. This strong industry reputation and deep partner relationships also enable the company to be a leading supplier of cost-effective desktops, laptops, tablets and Chromebooks to schools and enterprises. All of Nor-Tech's technology is made by Nor-Tech in Minnesota and supported by Nor-Tech around the world. The company has been in business since 1998 and is headquartered in Burnsville, Minn. just outside of Minneapolis. To
