

# Industrial Internet presentation 24 Feb 2017 - More Focus was Low Cost, Low Power, Reasonable Range and Wireless

---

PUNE, INDIA, March 21, 2018 /EINPresswire.com/ -- WiseGuyReports.com with their unique quality of simplifying the market research study, presents a deep diving study report "Industrial Internet presentation 24 Feb 2017 - Global Thematic Research"

Industrial Internet presentation

Overview:

The Internet of Things can only take off once all connected devices speak the same language. This has kicked off an intense battle for domination of the communications protocol that will govern the IoT. This communications protocol is likely to have two components -

- a single interconnection standard: must be low cost, low power, reasonable range and wireless
- a common language: must be able to interpret different operating systems on different cloud platforms.

Top Companies mentioned

Atmel

Cisco

Ericsson

FireEye

GE

IBM

Intel

InvenSense

Microsoft

Nokia

NXP

## Major Scope of the Report:

Thematic Research Ecosystem has developed a unique thematic methodology for valuing technology, media and telecom companies based on their relative strength in the big investment themes that are impacting their industry. Whilst most investment research is underpinned by backwards looking company valuation models, thematic methodology identifies which companies are best placed to succeed in a future filled with multiple disruptive threats.

To do this, tracks the performance of the top 600 technology, media and telecom stocks against the 50 most important themes driving their earnings, generating 30,000 thematic scores. The algorithms in “thematic engine” help to clearly identify the winners and losers within the TMT sector. Our 600 TMT stocks are categorised into 18 sectors. Each sector scorecard has a thematic screen, a risk screen and a valuation screen.

Thematic research ecosystem has a three-tiered reporting structure: single theme, multi-theme and sector scorecard. This report is a Multi-Theme report, covering all stocks, all sectors and all themes, giving readers a strong sense of how everything fits together and how conflicting themes might interact with one another.
