

Ion Exchange Resins Market 2018-2021 : World Consumption and Sales Analysis Market Report

PUNE, INDIA, March 22, 2018 /EINPresswire.com/ --

Global Ion Exchange Resins Market

WiseGuyReports.com Presents "Global Ion Exchange Resins Market 2017-2021" New Document to its Studies Database. The Report Contain 78 Pages With Detailed Analysis.

Description

Ion-exchange resins are insoluble positively or negatively charged polymers that are used to attract ions with an opposite charge in an aqueous solution. The resins that exchange positive ions are called cation-exchange resins and those that exchange negative ions are called anion-exchange resins. These resins are used widely in various industries, including power generation, water treatment, chemical, pharmaceutical, and other industries.

The analysts forecast the global ion exchange resins market to grow at a CAGR of 5.14% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global ion exchange resins market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- APAC
- Europe
- North America
- ROW

The Global Ion Exchange Resins Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- BASF
- Mitsubishi Chemical Holdings

- ION EXCHANGE
- LANXESS
- The Dow Chemical Company
- Thermax Global

Other prominent vendors

- Bayer
- Eichrom Technologies
- Finex
- Novasep
- Purolite

Market driver

- Increasing adoption of ion-exchange resins for water treatment
- For a full, detailed list, view our report

Market challenge

- Disadvantages of ion-exchange resins
- For a full, detailed list, view our report

Market trend

- Increasing acceptance of household water purifiers
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights
- Overview

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by end users

- Global ion-exchange resins market by end users
- Global ion-exchange resins market for power segment
- Global ion-exchange resins market for water treatment segment
- Global ion-exchange resins market for chemical segment
- Global ion-exchange resins market for pharmaceutical segment
- Global ion-exchange resins market for other end-user segments

PART 07: Geographic segmentation

- Global ion-exchange resins market by geography
- Ion-exchange resins market in APAC
- Ion-exchange resins market in North America
- Ion-exchange resins market in Europe
- Ion-exchange resins market in ROW

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Impact of drivers on key geographic segments
- Market challenges
- Impact of challenges on key geographic segments

PART 10: Market trends

- Emergence of ion-exchange resins market in APAC
- Increasing acceptance of household water purifiers
- Opportunities in biodiesel purification and spectrometry

PART 11: Vendor landscape

- Competitive scenario
- Key market vendors
- Other prominent vendors

PART 12: Key vendor analysis

- BASF
- Mitsubishi Chemical Holdings
- ION EXCHANGE
- LANXESS
- The Dow Chemical Company
- Thermax Global
