

Automotive Polycarbonate Glazing Market 2018 - Industry Analysis, Size, Share, Strategies and Forecast to 2025

PUNE, INDIA, March 22, 2018 /EINPresswire.com/ -- Global Automotive Polycarbonate Glazing Industry

Latest Report on Automotive Polycarbonate Glazing Market Global Analysis & 2025 Forecast Research Study

The report covers the analysis and forecast of the Automotive Polycarbonate Glazing market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2016 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the automotive polycarbonate glazing market, with segmentation based on by application, by glass, by plastic compound, by vehicle and regional demand. In automotive industry, the advantages of polycarbonate material have boosted the adoption of automotive polycarbonate glazing market. The use of polycarbonate reduces vehicle weight which in turn improves the vehicles fuel efficiency. Furthermore, the rise in demand for light weight materials and the market growth for automotive sunroofs have flourished the growth for global automotive polycarbonate glazing market. Apart from just light weighting polycarbonate glazing has improved functionality and increased design freedom that have gained a huge importance among automotive OEM (Original Equipment Manufacturer) while choosing materials. Thus in the future it is expected that the automotive polycarbonate glazing market will achieve significant growth opportunities during the forecast period of 2016-2025.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Covestro AG, Webasto SE, Freeglass GmbH & Co.KG, Saudi Basic Industries Corp., Mitsubishi Engineering – Plastics Corporation, CHI MEI Corporation, Trinseo S.A., Teijin Limited, and Krd Sicherheitstechnik GmbH

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East & Africa, and Latin America. The segmentation also includes demand of

the technology and applications in all regions.

The competitive profiling of the key players in the global automotive polycarbonate glazing market across five broad geographic regions is included in the study. These include different business strategies adopted by the leading players and their recent developments, as in the field of automotive verticals.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the automotive polycarbonate glazing market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2016 to 2025, along with offering an inclusive study of the automotive polycarbonate glazing market.

The report provides the size of the automotive polycarbonate glazing market in 2016 and the forecast for the next nine years up to 2025. The size of the global automotive polycarbonate glazing market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Middle East and Africa, and Asia Pacific have been taken into account in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. Demand for automotive polycarbonate glazing has been derived by analyzing the global and regional demand for advanced telematics in each application for its respective functions. The Automotive polycarbonate glazing market has been analyzed based on expected demand. Forecasts have been based on expected demand from automotive polycarbonate glazing applications. We have used the bottom-up approach to estimate the global revenue of the automotive polycarbonate glazing market, split into regions. Based on, application, by glass, by plastic compound, and vehicle type, we have summed up the individual revenues from all the regions to achieve the global revenue for automotive polycarbonate glazing. The application split of the market has been derived using a bottom-up approach for each regional market separately, with the global application segment split being an integration of regional estimates. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of automotive polycarbonate glazing several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence across all applications.

The global Automotive Polycarbonate Glazing market has been segmented into:

Automotive Polycarbonate Glazing Market: By Geography

- North America
- U.S.
- Canada

- Mexico
- Europe
- U.K.
- Italy
- France
- Germany
- Spain
- Rest of Europe
- Asia Pacific
- India
- China
- Japan
- South Korea
- Rest of Asia Pacific
- Middle East and Africa
- Turkey
- Iran
- South Africa
- Rest of Middle East and Africa
- Latin America
- Brazil
- Argentina
- Rest of Latin America

Automotive Polycarbonate Glazing Market: By Vehicle Type

- Passenger Cars
- Light Commercial Vehicles

Automotive Polycarbonate Glazing Market: By Application

- Panoramic Roof
- Rear Windows
- Front Windshield
- Side Windows

Automotive Polycarbonate Glazing Market: By Plastic Compound

- Polycarbonates (PC)
