

# Industrial Control and Factory Automation Market Major Manufacturers, Trends, Demand, Share Analysis to 2025

PUNE, INDIA, March 22, 2018 /EINPresswire.com/ -- Global Industrial Control and Factory Automation Industry

Latest Report on Industrial Control and Factory Automation Market Global Analysis & 2025 Forecast Research Study

The report covers the analysis and forecast of the industrial control and factory automation market on global as well as regional level. The study provides historic data of 2016 along with the forecast for the period between 2017 and 2025 based on revenue (US\$ Mn).

The study provides a detailed view of the industrial control and factory automation market, by segmenting it by technology, by component, by end-user and regional demand. The rising adoption of automation in industry verticals creates a huge demand of this market. Industries such as automotive, metal, consumer goods manufacturing, food processing and packaging and material handling greatly benefit from wireless technologies. Therefore, wireless plays a major role in processing plants and factories. Extensive use of industrial robotics and their continuous innovation leads to a high market growth opportunity for industrial control and factory automation.

Regional segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Middle East and Africa and Latin America. The segmentation also includes by technology, by components, and end-user in all regions.

The report covers a detailed competitive outlook that includes the market share and company profiles of key players operating in the global market. Key players profiled in the report include Siemens A.G., Robert Bosch GmbH, ABB Ltd., Honeywell International Inc., Autodesk Inc. and others.

The competitive profiling of the key players in the global industrial control and factory automation market across five broad geographic regions are included in the study. These include

different business strategies adopted by the leading players and their recent developments.

A comprehensive analysis of the market dynamics that is inclusive of market drivers, restraints, and opportunities is part of the report. Additionally, the report includes potential opportunities in the industrial control and factory automation market at the global and regional levels. Market dynamics are the factors which impact the market growth, so their analysis helps understand the ongoing trends of the global market. Therefore, the report provides the forecast of the global market for the period from 2017 to 2025, along with offering an inclusive study of the industrial control and factory automation market.

The report provides the size of the industrial control and factory automation market in 2017 and the forecast for the next nine years up to 2025. The size of the global industrial control and factory automation market is provided in terms of revenue. Market revenue is defined in US\$ Mn. The market dynamics prevalent in North America, Europe, Asia Pacific, Middle East and Africa and Latin America has been considered in estimating the growth of the global market.

Market estimates for this study have been based on revenue being derived through regional pricing trends. The industrial control and factory automation market has been analyzed based on expected demand. We have used the bottom-up approach to estimate the global revenue of the industrial control and factory automation market, split into regions. Based on, technology, component, and end-users we have summed up the individual revenues from all the regions to achieve the global revenue for industrial control and factory automation. Companies were considered for the market share analysis, based on their innovation and application and revenue generation. In the absence of specific data related to the sales of industrial control and factory automation several privately held companies, calculated assumptions have been made in view of the company's penetration and regional presence.

The global industrial control and factory automation market has been segmented into:

Global Industrial Control and Factory Automation Market: By Technology

- SCADA
- DCS
- PAC & RTU
- PLM
- MES & MOM
- Electric Drives
- Sensors

Global Industrial Control and Factory Automation Market: By Components

- Cables
- Industrial Robots
- Control Valves
- Enclosures
- Machine Vision

Global Industrial Control and Factory Automation Market: By End-User

- Discrete Industries

- Process Industries

Global Industrial Control and Factory Automation Market: By Geography

- North America

- o U.S.

- o Canada

- o Mexico

- Europe

- o U.K.

- o France

- o Germany

- o Spain

- o Rest of Europe

- Asia Pacific

- o India

- o China

- o Japan

- o Rest of Asia Pacific

- Middle East and Africa

- o South Africa

- o Rest of Middle East and Africa

- Latin America

- o Brazil

- o Rest of Latin America
