

United States Mammography Screening Market 2018 - Industry Analysis, Size, Share, Strategies and Forecast to 2022

PUNE, INDIA, March 23, 2018 /EINPresswire.com/ -- United States Mammography Screening Industry

United States mammography screening market is expected to reach more than US\$ 5.4 Billion by 2022. Market growth can be attributed to factors such as increasing incidence of breast cancer, increasing awareness related to early breast cancer detection, growing government investments and funding for breast cancer screening, technological advancement in mammography technologies and implementation of several initiatives to create awareness about the early detection of breast cancer.
