The Cocoa & Chocolate Market report also provides an in-depth survey of key players in the market which is based on the various objectives of an organization such as profiling, the product outline, the quantity of production, required raw material, and the financial health of the organization.

Cocoa & chocolate are used to provide taste, flavor, and texture to food, in addition to nutritional and functional benefits. Cocoa butter, cocoa liquor, and cocoa powder are some of the major ingredients used to manufacture chocolates. The favorable characteristics of cocoa butter (melting point and contraction) provide a melt-in-the mouth sensation and easy removal of chocolates from the molds. The chocolate also masks the unpleasant taste of tablets and encourages its usage for medicinal purposes.

This report includes market status and forecast of global and major regions, with introduction of vendors, regions, product types and end industries; and this report counts product types and end industries in global and major regions.
