

Quantum Medical (OTC Pink: DRWN) Collaboration with Oracle To Develop HIPAA Compliant Blockchain Technology

The first HIPAA (Health Insurance Portability and Accountability Act) compliant blockchain technology.

MIAMI, FLORIDA, USA, March 26, 2018
/EINPresswire.com/ --

(EmergingGrowth.com Newswire) – EmergingGrowth.com, a leading independent small cap media portal with an extensive history of providing unparalleled content for the Emerging Growth markets and companies, reports on Quantum Medical (OTC Pink: DRWN).

Ricky Bernard, President of Quantum Medical commented: “With Oracle’s collaboration with development and their [Blockchain](#) Cloud Service, we can accelerate revenue, create new revenue streams, and reduce cost and risk by securely extending medical blockchain business applications and processes while speeding up transactions across our partner ecosystem.”

Quantum Medical Transport, Inc., (OTC Pink: DRWN) an emerging growth medical services company (the “Company”) announces its acceptance of Oracle Corp’s invitation to participate in the Oracle Blockchain Cloud Platform Beta program, as the first step in developing “QuantH”, a [HIPAA](#) compliant medical blockchain technology.

“QuantH Medical Blockchain Technology will enable secure encryption data sharing (Health Information Data Exchange) that will be HIPAA compliant.”

*Ricky Bernard, President,
Quantum Medical (OTC Pink:
DRWN)*

Quantum Medical Transport, Inc.’s (OTC Pink: DRWN) QuantH, its own proprietary medical blockchain technology is currently in development and will launch as the first HIPAA (Health Insurance Portability and Accountability Act) compliant blockchain technology.

Oracle Corporation’s (NASDAQ: ORCL), cloud-based integration platform is the largest provider to banks and supply chain vendors for the transfer of information and can handle the large amounts of data that the transmittal of medical practices require.

Ricky Bernard, President of Quantum Medical, reached out to Oracle Corporation for a joint development of Quantum's QuantH medical blockchain technology. In response, Oracle's head of blockchain technology, invited Quantum Medical to participate in the Oracle's Blockchain Cloud Platform Beta Program in support of developing the Company's QuantH medical blockchain technology.

Quantum Medical Transport, Inc.'s (OTC Pink: DRWN) QuantH is currently being developed on Oracle's cloud-based integration platform, where, QuantH Medical Blockchain Technology will enable secure encryption data sharing (Health Information Data Exchange), on a Hyperfabric Ledger Linux Platform.

Ricky Bernard, President of Quantum Medical commented: "QuantH Medical Blockchain Technology will enable secure encryption data sharing (Health Information Data Exchange) that will be HIPAA compliant. We believe this technology platform can be a significant revenue generator for the company as healthcare professionals such physicians, medical facilities including the nursing homes we currently service will be able to utilize the subscription service that will use a multi-signature, multi-layer secure key code through a set of customized nodes to transport data."

As blockchain technology continues to evolve, Oracle will stay on top of the latest capabilities to ensure that our technology stays agile and competitive.

Bernard continued, "With Oracle's collaboration with development and their Blockchain Cloud Service, we can accelerate revenue, create new revenue streams, and reduce cost and risk by securely extending medical blockchain business applications and processes while speeding up transactions across our partner ecosystem."

This enterprise-grade blockchain solution will enable us and our customers to:

Deliver Business Results—with the ability to rapidly onboard and easily scale global network participants, your operations run continually with resilience, high availability, and autonomous recoverability. Secure access in a permissioned blockchain is protected by Oracle Identity Cloud Service with behavioral authentication, single sign-on, and key management services.

Drive Innovation—for Oracle ERP Cloud, Oracle Supply Chain Management Cloud (SCM), and other applications running in Oracle Cloud and on premises. Extend your enterprise boundaries by enabling new business models and revenue streams from untapped markets with blockchain-verified identity and offerings. Speed up existing business processes with trusted, real-time information sharing across existing Oracle ERP Cloud, Oracle SCM Cloud, NetsuiteSuiteCloud Platform, and custom blockchain application integrations.

Reduce Risk, Complexity, and Increase Efficiency—by securely automating cross-organization transactions and providing reliable sharing of information—both inside and outside the enterprise boundary. As a result, your organization simplifies compliance and audits, while reducing transaction costs and security and privacy risks. A pre-assembled, managed cloud platform also enables you to simplify operational complexity, dynamically change network configurations, and rapidly identify and resolve issues with real-time monitoring dashboards.

Accelerate Time to Market—with a REST API-driven platform and rich integration options in Oracle Cloud Platform. Start developing blockchain applications within minutes without complex setup and provisioning. Leverage API-driven development for cloud and on-premises applications using REST API and API management service to easily invoke blockchain services directly or with integration accelerators from Oracle Cloud.
