

# Process Pigging Technology Company HPS Appoints New System Design Manager

*HPS Product Recovery Solutions  
Welcome Back Lawrence Dunn To New  
Role*

NOTTINGHAM, NOTTINGHAMSHIRE,  
UNITED KINGDOM, March 27, 2018  
/EINPresswire.com/ -- [HPS Product  
Recovery Solutions](#), the leading experts  
in process and hygienic [pigging](#)  
technology, have appointed Lawrence  
Dunn to the newly created role of System  
Design Manager.

In this new role, Lawrence will be  
heading up system design and will be  
responsible for developing optimal  
solutions to meet the precise needs of  
new and existing clients.

The appointment represents a return to  
the company for Lawrence, having  
previously enjoyed a successful eight-year spell at the company from 2007 to 2015.

Since then he had a stint at managing the South East region of a well-known supplier of process,  
pumps, valves and other process equipment.

“

I've re-joined the company at  
an important stage and I'm  
looking forward to contributing  
to the company's success by  
helping customers increase  
yields, reduce waste and  
improve their processes”

*Lawrence Dunn*

This experience, totalling over 20 years in process design,  
has given Lawrence a deep understanding of HPS's  
technology and its customers.

Gilbert Murphy, CEO at HPS, said: “It's a pleasure to have  
Lawrence back with us. He has a wealth of experience in  
process design and is an asset to HPS. This new appointment  
comes at an exciting time in the company's growth. Lawrence  
will be an integral part of this and will enable HPS to continue  
to provide high-quality process design solutions to our  
customers”.

Process Pigging Specialist's New Appointment

HPS provides pigging, liquid product recovery and liquid transfer solutions to businesses that process liquids. Its patented technology enables manufacturers to retain up to 99.5% of product normally flushed away during changeovers.

The company's key industries include food, beverages, confectionery, homecare products, paint, cosmetics, pet food, plus more.

Lawrence commented "I'm delighted to be back at HPS. They've got a market-leading product, a dedicated team and some great customers. I've re-joined the company at an important stage and I'm looking forward to contributing to the company's success by helping customers increase yields, reduce waste and improve their processes".

HPS started business back in 1995. Since then the company has enjoyed steady growth to become the world's leading provider of liquid product recovery and transfer systems to processing companies across the world. The company has offices in the UK, US and Australia, as well as having a global network of agents and representatives.

Lawrence concluded, "While HPS are well-known for their market leading pigging solutions, I'm really looking forward to showing customers what we can offer them in regard to the liquid distribution systems and liquid transfer solutions".
