[Canopy Airport Parking](https://canopyairportparking.com) Honors Arbor Day with Its Dedication to Green Practices

In recognition of Arbor Day, drivers can support a business that is revolutionizing the environmental standards in the [parking](#) industry. By parking with Canopy Airport Parking, they can join the green movement and lower their carbon footprint.

Arbor Day is an annual observance that celebrates the role of trees in our lives and promotes tree planting and care. In honor of this holiday and the strides that have been made in taking care of our environment for the generations to come, Canopy Airport Parking has worked to change the environmental standards in the parking industry.

The environment is a top concern for Canopy Airport Parking, and it understands the importance of using sustainable business practices, taking advantage of alternative fuels, and reducing its carbon footprint. By parking with Canopy, drivers can join the green movement and lower their own carbon footprint.

**Canopy Cares About Carbon Footprint Awareness**

Just how can an airport parking company help lower someone's carbon footprint? By leaving their car at a facility like Canopy Airport Parking, drivers can help remove pollution from the atmosphere, because Canopy generates virtually no additional greenhouse gases. Improving its energy consumption habits is a task of great importance to Canopy Airport Parking. Canopy is a part of the solution to this huge challenge because it is aware of the resources it consumes. Canopy Airport Parking is also taking simple steps to reduce consumption, and partners with businesses that are run sustainably and efficiently.

**Proud To Be One Of The World's Greenest Parking Facilities**

Canopy Airport Parking is proud to be one of the world's greenest parking facilities. It prides itself on making drivers' [long-term parking](#) as effortless as possible and has taken the opportunity to use its widely utilized service to make a positive impact.

Canopy Airport Parking is the first off-site airport parking facility to be Green Garage Certified. Built to run as efficiently as possible, Canopy continues to reduce the overall impact of resources typically used by long-term parking facilities. The facility is run on almost no electricity; on-site solar fields produce any electricity that is consumed.

**A Partner of Colorado's Clean Cities Coalition & a LEED Certified Parking Facility**

Canopy Airport Parking focuses on energy efficiency and a commitment to integrating new green technologies in its parking facility. It has chosen to comply with the U.S. Green Building Council's rigorous guidelines for environmentally friendly buildings and has received a LEED certification. This guarantees that its facility conserves energy, water, and other resources. The US Green Building Council has recognized Canopy for its efforts in sustainable building design every year since 2010.
