As you enter the world of our main character – Electra Kittner – you will soon discover why she is exceptional, and why she must keep her secret hidden. And she does just that, though she needs to use all her abilities as she battles Middle East Terrorism and the "Techno-Plague" while keeping an intolerant and intrusive government at bay.

The series is "plausible socio-political and science future-projection" that should appeal to a wide audience. We invite you to shapeshift your view into the future as the novel chronicles Electra's death-defying journey, from birth to a shocking conclusion on her 21st birthday, that demands an immediate sequel. Thanks for joining us.
