

Glaucoma Pharmaceutical and Healthcare Analysis Information

Glaucoma Pharmaceutical and Healthcare Pipeline Review H1

PUNE, INDIA, March 27, 2018 /EINPresswire.com/ -- Summary

Glaucoma is a disease of the eye in which fluid pressure within the eye rises. The exact cause of optic nerve damage from glaucoma is not fully understood, but involves mechanical compression and/or decreased blood flow of the optic nerve. The most important risk factors include age, elevated eye pressure, African ancestry, thin cornea, family history of glaucoma. Signs and symptoms include eye pain, nausea and vomiting (accompanying the severe eye pain), sudden onset of visual disturbance, often in low light, blurred vision and reddening of the eye.

Report Highlights

Pharmaceutical and Healthcare latest pipeline guide Glaucoma - Pipeline Review, H1 2018, provides comprehensive information on the therapeutics under development for Glaucoma (Ophthalmology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Glaucoma (Ophthalmology) pipeline guide also reviews of key players involved in therapeutic development for Glaucoma and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies /Universities /Institutes, the molecules developed by Companies in Pre-Registration, Filing rejected/Withdrawn, Phase III, Phase II, Phase I, Preclinical, Discovery and Unknown stages are 1, 1, 11, 20, 8, 58, 14 and 4 respectively. Similarly, the Universities portfolio in Phase I, Preclinical and Discovery stages comprises 1, 10 and 3 molecules, respectively.

Glaucoma (Ophthalmology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Scope

- The pipeline guide provides a snapshot of the global therapeutic landscape of Glaucoma (Ophthalmology).
- The pipeline guide reviews pipeline therapeutics for Glaucoma (Ophthalmology) by companies and universities/research institutes based on information derived from company and industry-specific sources.
- The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.
- The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.
- The pipeline guide reviews key companies involved in Glaucoma (Ophthalmology) therapeutics

and enlists all their major and minor projects.

- The pipeline guide evaluates Glaucoma (Ophthalmology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.
- The pipeline guide encapsulates all the dormant and discontinued pipeline projects.
- The pipeline guide reviews latest news related to pipeline therapeutics for Glaucoma (Ophthalmology)

Reasons to buy

- Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.
- Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.
- Find and recognize significant and varied types of therapeutics under development for Glaucoma (Ophthalmology).
- Classify potential new clients or partners in the target demographic.
- Develop tactical initiatives by understanding the focus areas of leading companies.
- Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.
- Formulate corrective measures for pipeline projects by understanding Glaucoma (Ophthalmology) pipeline depth and focus of Indication therapeutics.
- Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.
- Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Table of Content: Key Points

Table of Contents 2

Introduction 5

Glaucoma - Overview 6

Glaucoma - Therapeutics Development 7

Glaucoma - Therapeutics Assessment 24

Glaucoma - Companies Involved in Therapeutics Development 36

Glaucoma - Drug Profiles 62

Glaucoma - Dormant Projects 267

Glaucoma - Discontinued Products 273

Glaucoma - Product Development Milestones 275
