

Wedding Hologram Company Announces The Launch Of New Website Featuring 3D Hologram Displays for Weddings & Receptions

Chicago Based Wedding Rental Company Launches New Website Showcasing Modern Hologram Display Services For Event Planners and Bride & Groom

CHICAGO, IL., UNITED STATES, March 27, 2018 /EINPresswire.com/ -- Chicago area weddings are about to get a whole lot more interesting. A Chicago-based company, WeddingHolograms.com is going live with a brand new website that makes it easier than ever to incorporate 3D hologram displays into your wedding or reception. That's going to be of significant interest in the Chicago suburbs, where weddings are often expected to be ever-more extravagant and sophisticated. Now brides, grooms, and wedding planners alike are going to have a brand new way to create a unique wow-factor for receptions and ceremonies.

Modern holograms displays are versatile, attention-getting, and elegant. They're a novel and powerful way to help your wedding stand out--both in the moment and through social media. And they can be customized to suit your ceremony. Some couples may select a holographic wedding cake, a custom photo album, or a bound pair of intertwined 3D wedding rings. All of these holograms can be personalized and customized to feature the names of the happy couple, the date of the ceremony, or special messages for friends and family. For those who are feeling a little more adventurous, WeddingHolograms.com can also create entirely new and custom holographic displays. These displays can be created from the ground up so as to be unique pieces of art that compliment the character of the wedding.

“

Wedding Holograms was created for those looking for more "Wow" and less ordinary on their special day!"

Mark

“There's a hologram for everyone,” said Mark Smith, owner and founder of WeddingHolograms.com. “Through our conversations with clients, we've found that everyone really wants something unique, something that stands out. Holograms are a great way to do that. Not only is it novel, not only is it cool and futuristic, but it's also all about you and your wedding.” Smith's company has already received inquiries about holograms that would create a custom wedding

atmosphere or compliment a high end wedding reception.

“The cost of the rental is very reasonable,” Smith continued, noting how surprised many clients were

3D Hologram Displays For Your Wedding

about that, especially since WeddingHolograms.com will deliver, set up, and remove the necessary equipment. In general, the cost of a hologram rental can often be more affordable than a photo booth or light rentals. Some past clients have actually described the holographic displays as better than a photo booth in terms of creating memories and atmosphere. After all, everyone's going to have photos. But not everyone will have a 3D holographic display.

While a portion of their appeal might originate in their novelty, a personalized wedding hologram display makes for a one-of-a-kind wedding because they reflect the personalities and dreams of the happy couple. It's a cool wedding reception idea that can make for a memorable celebration. Whether you see a custom wedding display that highlights brides and grooms with an interlocking wedding ring, animation or interactive

wedding album hologram, or a completely new and custom hologram, these displays can capture the spirit of the moment in a way that connects with modern, tech-savvy wedding guests. To a certain extent, the sky's the limit with this non-traditional art form. That's why you should expect to see this holographic displays start showing up in Chicago area weddings and receptions. WeddingHolograms.com will make it easy for anyone planning a wedding, reception, or event to browse the possibilities and start the process.

Holograms at weddings are trending, but because of their innate customizability, grace, and elegance, they'll likely be part of weddings for many years to come. WeddingHolograms.com is now here to help you and your wedding stand out.

About WeddingHolograms.com: WeddingHolograms.com is a brand new website dedicated to making it easier for wedding planners, event coordinators, and happy couples in the Chicago area to rent custom 3D holographic displays. The website itself offers a unique experience for brides and grooms, helping them choose the best custom hologram display for their receptions or weddings.

Wedding Holograms was created for those looking for more "Wow" and less ordinary on their wedding day. Based in the Chicago suburbs, we provide custom holographic displays for a one-of-a-kind experience that guests will talk about for years.
