WiseGuyReports.com Presents "Global Gelatin Market 2017-2021" New Document to its Studies Database. The Report Contain 70 Pages With Detailed Analysis.

Description

Gelatin is a colorless, flavorless, semi-transparent, and brittle collagen product. It is a protein food product generally derived from the several animal sources. It is used in several applications as a stabilizer, thickener, and gelling agent. Gelatin is normally graded into categories as per its quality and strength, and the unit is named as 'bloom.' A greater bloom number signifies a high quality of gelatin. The color of the gelatin product is depended on the raw material type. The superior quality of gelatin are high molecular weight compounds and with better gel strength.

The analysts forecast the global gelatin market to grow at a CAGR of 6.38% during the period 2017-2021.
