

# Recipe Costing Software Hits 137 Countries Builds New Partnerships

*After the United States, Australia and New Zealand are our fastest growing markets.*

MIAMI, FL, USA, March 28, 2018 /EINPresswire.com/ -- [Recipe Costing Software](#) continues to be the fastest growing restaurant management platform worldwide. Our software allows restaurant owners to manage recipe and menu costs while integrating with our partner's point of sales software. Used by single, multi-unit and franchise operators worldwide. To manage their rapid growth, Recipe-Costing Software strategically partnered up overseas companies providing a comprehensive, scalable workforce solution to support new users across the globe.

“After the United States, Australia and New Zealand are our fastest growing markets. It was clear to me; we needed people on the ground to support our users in this region. We selected to work with companies that had technical expertise and experience in the restaurant and hospitality industries to ensure we provide exceptional service to the end user. They are also experts in using Kounta POS and XERO as well as other brands. We built partnerships in AU and NZ with Innovators Direct from Australia, Indigo Software from New Zealand. The collaboration will support a regional launch of Recipe Costing Software, the Restaurant Management Software with scalable, optimized costing solutions for restaurants of all sizes,” said Robert Vasquez.

Innovators Direct are a passionate team of experienced hospitality individuals who know what it takes to run a successful restaurant, cafe or bar in an ever-changing environment. We work with our clients to get them up and running on the cloud with a combination of software that enables them greater insight into their business operations. By integrating POS, HR software, Customer Loyalty Platforms, Online and Mobile Ordering as well as Inventory Software we can help owners manage their venues with accuracy and efficiency. Innovators Direct offers Australia extensive service both on-site in QLD, VIC, SA and NSW and via web link for WA and NT. With our 24/7 support, consultancy services, on-site training, and all hardware requirements we pride ourselves on being a one-stop shop solution for our clients!

About Recipe-Costing.com

Recipe-Costing.com software is a product of Kitchen Porter Tech LLC. We build restaurant management software to streamline operations, reduce labor costs through automation and save restaurant operators on their bottom line. Robert Vasquez worked in the restaurant business for over a decade while attending college. After graduating from NOVA Southeastern University, he worked as a financial controller and software developer before owning and operating his own restaurants. His education and work experience have given him a unique insight to building automated systems that work! The Recipe-Costing software platform provides restaurant operators automated back office tasks providing counts, costs, and analytical reports. Join our users in over 100 countries.
