

# GlobalSim Formally Announces 5th Generation Full Mission System

*GlobalSim, Inc. is pleased to formally announce the release of its 5th generation Full Mission System.*

SANDY, UTAH, UNITED STATES, March 30, 2018 /EINPresswire.com/ -- GlobalSim, Inc. is pleased to formally announce the release of its 5th generation Full Mission System. The state-of-the-art simulator offers a variety of enhancements over previous generation of systems and is undoubtedly one of the premier simulators available on the market today. GlobalSim has delivered several 5th generation simulators: two that have been put into service in January at the New York Shipping Association (NYSA), and one at Port Newark Container Terminal (PNCT). West Gulf Maritime Association (WGMA), is currently awaiting for their 5th generation Full Mission System to be delivered next month.

An exceptional element implemented in the advanced system are the software updates. Superior graphics and visuals have contributed to the immersive realism crane operators experience when training on GlobalSim's 5th generation Full Mission System. Crane models, feeder ships, cargo loads, and all other pieces inside a port scenario have been enhanced to improve the simulated training experience.

Among other features include the newly engineered cabin built with a modular design. The new design is easily assembled and disassembled for a simple install in any type of facility including an office. Previous simulator screens have now been replaced with higher resolution displays which are dynamically adjustable, allowing for easy customization and vivid visuals. The new bracketing system, further improves the immersive experience by eliminating blind spots, minimizing obstructions needed for high level training.

"Our expert software engineers have made it possible to make customization options in previous generation of simulators, to become the new standard for our 5th Generation Full Mission System" remarks Brad Ball, GlobalSim's Vice President of Sales and Marketing. These features include a

CCTV camera and DVR systems, in addition, a 24-month warranty.

“GlobalSim’s Mechanical Engineers and Product Development team have spent countless hours building a system that will provide customers a level of training that almost parallels the experience on real equipment” remarks Jonathan McCurdy, CEO and President of GlobalSim. “Our customers have made a great investment in a high-quality product that will last years and years.”
